

Tax Take Hits New Record Of 105.9 Billion

WASHINGTON (AP) — In the news from Washington:

SMASHING CENTENNIAL: American taxpayers helped the Internal Revenue Service celebrate its 100th birthday by pouring a record tax take—\$105.9 billion—into federal coffers in the fiscal year which ended June 30.

The Treasury bonanza included a new high for individual income and employment taxes, \$67.9 billion, and a \$6.5-billion increase over fiscal 1962, when receipts totaled \$99.4 billion.

BELLYACHE: Eighty-year-old Rep. Howard W. Smith, chairman of the House Rules Committee, Wednesday suffered what he called "a bellyache," but recovered sufficiently to leave the Capitol after treatment.

The Virginia Democrat told photographers and newsmen as he walked to his automobile after several hours in the office of Dr. George W. Calver, the congressional physician, that he'd call them "if I drop dead after getting home."

Calver said the congressman apparently had suffered a mild attack of food poisoning.

BAGMEN? Edwin P. Neilan, president of the U.S. Chamber of Commerce, says the spoils system in the federal government is "more sophisticated, more sinister, than ever before."

There is a public scandal in federal spending, the Delaware banker said in a speech Wednesday at the National Press Club, and voters in many cases have turned their congressmen into "bagmen"—a term used to describe rackets collectors.

Neilan said federal spending has been used as a bribing power to buy votes.

And, in a Senate speech, Democratic leader Mike Mansfield of Montana accused Neilan of making "wild statements."

Dean Rusk Joins Khrushchev At Black Sea Home

MOSCOW (AP)—U.S. Secretary of State Dean Rusk returned today from a sightseeing trip to Leningrad, then flew with Foreign Secretary Andrei Gromyko to join Premier Khrushchev on the Black Sea.

Rusk was accompanied to the premier's vacation home at Gagrag by Llewellyn Thompson, special adviser on Soviet affairs to the State Department and former ambassador to Moscow, and Foy D. Kohler, the present ambassador.

Weather

Data By Weather Bureau, Escanaba and Associated Press

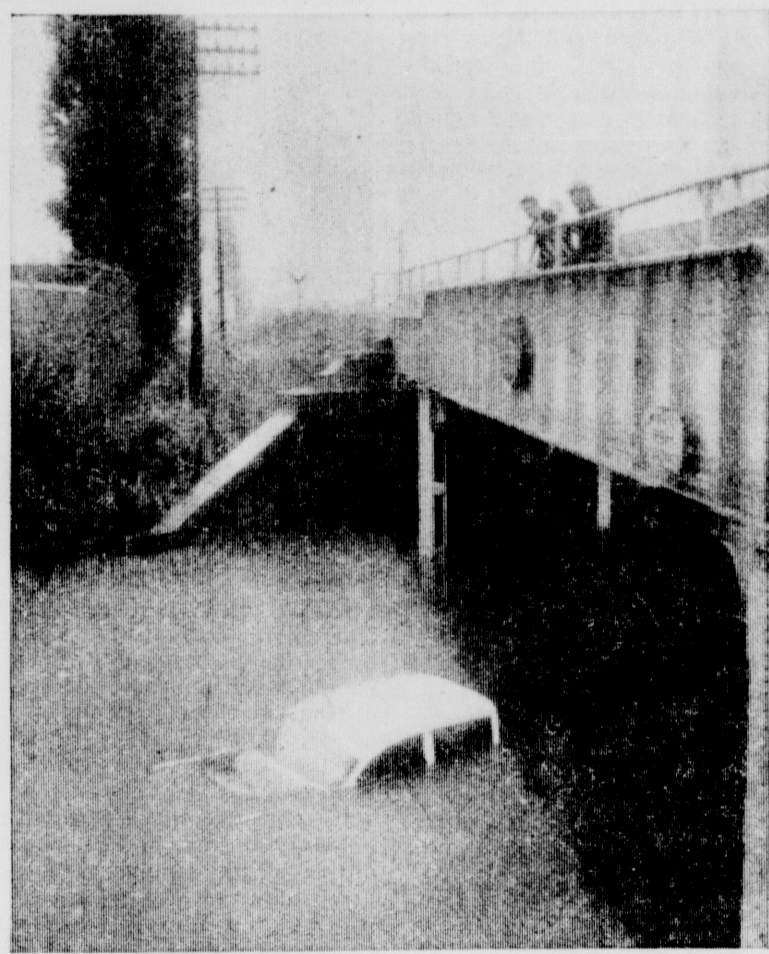

UPPER MICHIGAN: Partly cloudy and warm tonight and Friday with scattered thundershowers Friday and possible in west portion by late tonight. Lows tonight 56° to 64°. High Friday 77° to 86° turning a little cooler by late Friday.

OUTLOOK FOR SATURDAY: Clearing and slightly cooler.

ESCANABA AND VICINITY: Fair and mild this afternoon and evening. High today near 77°. Increasing cloudiness tonight and Friday with a few brief showers late tonight and Friday. Low to tonight 58°. Light southeast winds 8 to 12 mph this afternoon and evening increasing to southerly 12 to 20 mph tonight.

Rising floodwater nears the roof of an abandoned auto at a railroad underpass in Buffalo, N.Y., where torrential rains left many sections under four feet of water. More than 300 persons were evacuated by boat in the eastern suburb of Cheektowaga. (AP Wirephoto)

Deluge Swamps Buffalo; Damage Near 35 Million

BUFFALO, N. Y. (AP) — Flood damage in Buffalo was estimated at \$35 million following torrential rains that virtually swamped some areas and routed more than 300 persons from their homes.

Rains up to 3.88 inches drenched the city and suburbs Wednesday for the second time in 10 days.

Buses stopped running. Cars were abandoned as water filled low areas. Power was knocked out. Telephone lines were down. Many basements were flooded.

Suburb Takes To Boats

The rains fell mostly during the midmorning rush hours. It was over by noon.

"I've lived here 40 years and it's never been this bad," an East Side housewife said.

Mayor Chester Kowal estimated damage to public facilities at \$7 million and damage to homes and businesses at \$28 million.

He declared a state of emergency. Gov. Nelson A. Rockefeller ordered state public work crews to provide the city with whatever help was available.

In suburban Cheektowaga, which has not had a flood in 30 years, 15 boats moved stranded families to a high school. Police said about 80 per cent of the homes there received flood damage.

Ducks In Lobby

At the Buffalo Zoo, polar bears were swimming in the moat surrounding their cage. Clayton P. Freiheit, zoo curator, said guards stood nearby with weapons pointed but the water receded before the bears got free.

At Roswell Park Memorial Institute where ducks usually swim on a pond in the lobby, water gushed through the lobby and brought the ducks with it.

Last week, a 3.37-inch deluge caused flood damage between \$500,000 to \$1.5 million. Several

Glasgow-London Train Robbed

CHEDDINGTON, England (AP) — A band of 20 to 30 masked bandits decoupled the Glasgow-London mail train to a halt with a false signal today, blackjacked the engineer and escaped with loot that the post office said may exceed a million pounds (\$2.8 million).

Executed in 15 minutes, this was the biggest and boldest train robbery in British history. Of comparable robberies in the United States, the biggest cash haul was \$1,551,277 taken last Aug. 14 from a mail truck outside Plymouth, Mass.

"The loss is likely to be very heavy and may well run into seven figures," the British Post Office said. "This is the first attack on a traveling post office in the 125 years of their history."

Bevin promptly ordered a 10,000-pound (\$28,000) reward for information leading to the arrest and conviction of the bandits.

The bandits seized about 120 bags of registered mail containing a large quantity of used but still valid currency which was being returned to London for reprocessing. There were reports the haul also included a consignment of diamonds for Hatton Market, London's gem trading center.

Special Session Of Legislature Set For Sept. 11

MACKINAC ISLAND (AP) — Gov. George Romney and Republican legislative leaders have agreed on Sept. 11 as the D-day for launching a special session devoted to overhauling Michigan's structure.

Romney made the disclosure to newsmen Wednesday night after meeting with a score of GOP lawmakers in another of his briefing sessions on fiscal reform.

Taking part in the discussion—which will wind up Friday—were members of the house and senate taxation committees, the majority floor leaders, caucus chairmen and the speaker of the house.

They met at the governor's Summer residence on Mackinac Island.

Tax Reform First

Romney said they agreed that the special session will be restricted at first to questions of tax reform. The legislature then will be asked to deal with implementation of the new State Constitution.

The only exception will be in areas where the Constitution concerns tax matters, in which case those provisions will be dealt with as a part of the fiscal reform problem.

In calling a special session, the governor specifies what subjects are to be considered by the legislators—but he can expand the call to include other matters once the session is under way.

Revamping of the state tax system is needed, Romney insists, to provide relief for the business community and create a climate that will make Michigan competitive with other industrial states.

He also says some of the tax burden should be shifted from low income families to those more able to handle the burden.

Romney has narrowed the study of a possible tax reform program down to three basic alternatives. They center around a program which would be based primarily on local option taxes (such as the Detroit city income tax), State-wide taxation with a kickback to local government units (such as a state income tax), or a combination of the two.

"Trial Balloon" Ready

Two freshman Republican senators—Emil Lockwood of St. Louis and Garry Brown of Schoolcraft—floated what they described as a "trial balloon" tax program which has the principal aim of providing relief on property taxes.

The two lawmakers, who said they would bring up their idea in the discussions with Romney today or tomorrow, declared if an income tax is adopted by the legislature, a direct 30 per cent credit against such a tax should be granted on property taxes.

Neither Lockwood nor Brown was specific on what the income tax rates would be.

The two senators also said there should be reduction or elimination of many of the so-called nuisance taxes, plus abolition of the business activities and corporation franchise taxes.

Sen. Stanley Thayer, R-An Arbor, majority caucus chairman, said he had been advised in advance of the Lockwood-Brown program and felt that it was worth looking into. However, House Speaker Allison Green R-Kingsford, questioned how it would benefit individuals such as elderly citizens living on pensions who might not have to pay any income tax but still deserve relief from burdensome property taxes.

Romney said he had not been advised of the program, and would have no comment until it was outlined to the group.

The runoff campaign was expected to continue the themes of racial problems and opposition to the national administration's civil rights plans.

The winner will meet Rubel Phillips, a Jackson lawyer who switched his party allegiance from Democratic to Republican, in the Nov. 5 general election.

Duel Shapes Up In Mississippi

JACKSON, Miss. (AP) — Lt. Gov. Paul Johnson and former Gov. J.P. Coleman, facing a return of their 1955 duel for the governor's office, today sought support from backers of Charles Sullivan in the Aug. 27 Democratic runoff primary.

Johnson, 47, who has lost his three previous races for governor, led Coleman, 49, a state representative, who has never lost an election in 28 years of public life, in last Tuesday's first primary.

Sullivan, 48, a Clarksville attorney, repeated his performance of four years ago by finishing third. In that election, Gov. Ross Barnett succeeded Coleman as governor and Johnson won his first elective spot, the lieutenant governorship.

Johnson led the first primary in 1955 by 18,000 votes but Coleman won the runoff by more than 48,000 votes.

The runoff campaign was expected to continue the themes of racial problems and opposition to the national administration's civil rights plans.

The winner will meet Rubel Phillips, a Jackson lawyer who switched his party allegiance from Democratic to Republican, in the Nov. 5 general election.

New Son Of Kennedys In Serious Condition

Truce Line Cools Off In Korea

WITH THE 1ST CAVALRY DIVISION, Korea (AP)—Maj. Gen. Charles F. Leonard, new commander of this front-line division, said today the Korean truce line has cooled off.

Leonard, who assumed command of the 1st Cavalry Division Wednesday, predicted: "There won't be anything else stirring for some time."

The general told a newsmen Communist North Koreans "Wanted to find out if the 1st Cavalry Division was alert. Well, they found out. The 1st Cavalry is alert."

Unusually heavy patrol activity and occasional fighting broke out at spots along the truce line after three American soldiers in a jeep were ambushed July 29. Two were killed.

The 1st Cavalry beefed up its patrols along the demilitarized zone and killed four Communist raiders in an engagement in which an American and a South Korean policeman were also killed.

"I don't think there has been a pattern (to the Communist activity)," Leonard said. "It's an operational situation they just fell into."

All was quiet again Wednesday night for the third night along the U.S. sector of the demilitarized zone. No Communist patrols were sighted.

Railway Dispute Break Expected

WASHINGTON (AP)—The 156 local officials of the locomotive firemen's union who would have the final say on an agreement have been summoned to Washington next week in case there's a break in the railroad dispute.

"If there is to be an agreement this group has got to be here," said Secretary of Labor W. Willard Wirtz.

Wirtz did not indicate whether he had a solid proposal to submit to the union's general chairman but he told a news conference: "We are continuing to look for every possibility of an agreement."

So far there have been no outward signs of any leap forward in the face-to-face negotiations between railroad and union negotiators.

The talks, carried on under the eye of Wirtz, may determine by next week whether the carriers and the operating unions can settle their wrangle over jobs—or whether Congress will have to step in to avert a nationwide strike Aug. 29.

That's the date the railroads plan to institute the often-postponed work rules which would eliminate thousands of jobs, particularly those of firemen on diesel freight locomotives.

The carriers say the jobs are unnecessary. The union says they are needed for safety.

A second son, Patrick, was born Wednesday to President and Mrs. Kennedy. Shown above is a unit of the Otis Air Force Base Hospital at Hyannis Port, Mass., where the new baby arrived. (NEA Telephoto)

Nuclear Treaty Goes To Senate; 26 Nations Sign

WASHINGTON (AP) — The limited nuclear test ban treaty goes to the Senate late today after officials of 26 nations start signing the pact in a series of ceremonies at the State Department.

Along with the treaty, President Kennedy was expected to send the Senate a special message urging ratification.

Senate approval by the necessary two-thirds vote is expected in about a month, but not before some reservations to the ban on atmospheric, outer space and underwater blasts are registered.

Sen. Henry M. Jackson, D-Wash., for one, is calling for scientific testimony on Soviet progress toward neutralizing hostile missiles before he makes up his mind on the agreement.

Two Are Holdouts

The United States has asked other nations to support the pact, agreed to by it, Britain and the Soviet Union. With Australian Ambassador Howard Beale leading the procession, representatives of 26 nations will call at the State Department at 15 minute intervals to sign.

In Moscow and London, the treaty will be signed by other nations and—in some cases—by the same nations signing in Washington. The State Department estimated 56 nations in all will join the nuclear big three. Notable holdouts are France and Communist China.

Rusk First Witness

Jackson, chairman of the Senate Atomic Energy Committee on weapons, wants three fundamental questions answered about the nuclear pact which President Kennedy is sending to the Senate.

Power Reactor Development Co. has hopes of "going critical"—beginning experimental heat testing on nuclear power—by a week from Friday or Monday.

No electricity will be produced initially and it may be a year or more before atomic-generated steam begins whirling Fermi's 150,000-kilowatt generator up to capacity.

The Fermi is the first massive atomic power plant of its type, a so-called fast breeder reactor. It will produce more nuclear fuel in the form of plutonium than it burns in the form of Uranium U-235.

Reactors such as Enrico Fermi's could create fuel to fire others while feeding itself, and the Atomic Energy Commission reported to President Kennedy last November:

"Only by the use of breeders would we really solve the problem of adequate energy supplies for future generations."

The AEC added that it now believes it is on the threshold of attaining a primary objective of competitive nuclear power in high fuel cost areas by 1968.

Power Reactor Development Co., builder of the reactor, will sell atomic-generated heat to Detroit Edison Co., which will use it in producing steam for Edison's adjoining 150,000-kilowatt electric generator.

Doctors Hopeful For Recovery Of Baby Patrick

BOSTON (AP)—Patrick Bouvier Kennedy, one-day old son of the President, was listed in serious condition today, but doctors said the way he spent his first night gave some encouragement.

The President visited his new son this morning at the Boston Children's Medical Center and moments later, presidential press secretary Pierre Salinger issued this statement:

"The baby's condition remained about the same through the night.

"It was a source of some encouragement to doctors who felt the baby's condition would get worse."

"The baby's condition would have to be described as still serious, a cause of some concern, Salinger said.

Breathing Difficult

The White House put wraps on release of medical information directly at Boston Children's Hospital where the 4-pound, 10-ounce baby is fighting breathing difficulties.

Salinger said the White House staff would release all information on the baby's condition and refused to discuss details of the case.

He said the diagnosis remained the same as it was Wednesday—the general term idiopathic respiratory distress syndrome—or difficulty in breathing from unknown causes.

Although Salinger said the condition was still serious it was the first time he had used that word to describe the baby's condition.

Mother Is O. K.

The President stayed at the hospital for about a half-hour and then left by helicopter for the Otis Air Force Base Hospital on Cape Cod, about 65 miles away, where the baby was born Wednesday and where Mrs. Kennedy is recovering.

First Lady Jacqueline Kennedy rested nicely overnight and was reported in excellent condition after the excitement of the Caesarian birth of her third child—5½ weeks ahead of time. Her mother, Mrs. Hugh Auchincloss, who flew to Cape Cod Wednesday night, said Mrs. Kennedy was "remarkably well and in good spirits."

Not On Danger List

The President's infant son was rushed by ambulance to Boston Children's Medical Center within five hours of his birth at Otis Air Force Base Hospital, some 65 miles from Boston.

Little Patrick was not considered on the danger list or anything like it, according to Pierre Salinger, White House press secretary. However, Salinger said it would probably take four days before the condition develops to a point where a final diagnosis can be made.

The President made plans to send up his nuclear test ban treaty message this afternoon, as was scheduled before the emergency birth interrupted his White House routine.

The birth of the Kennedy's second son had all the excitement of a fictional drama.

It was the first time in 68 years that a baby was born to the wife of the President in office. It hadn't happened since the Cleveland era.

Stork Beats President

It was the 22nd grandchild in the family headed by Joseph P. Kennedy, 74, former ambassador to England. For the second time, Kennedy lost a race with the stork. He was about 40 minutes too late to be at Otis Air Force Base when his second son arrived Wednesday. And, in November 1960, when his first son, John Jr., was born some three weeks prematurely, Kennedy, flying back from Palm Beach, Fla., got the word in the air that the baby had been born at Georgetown University Hospital, again in a similar emergency situation.

The Kennedys named the new baby Patrick, after the President's grandfather, and Bouvier, for Mrs. Kennedy's father, the late John V. Bouvier, a New York stock broker.

Because of the premature birth, the baby was baptized in the surgery room shortly after birth by the base Catholic Chaplain, the Rev. John Schahill of Portland, Maine.

This procedure is considered common practice in premature

U.P. Looks To Escanaba And Big Fair Next Week

For thousands of 4-H youth, farmers, and other exhibitors of everything from pedigreed calves to cookies and carrots all roads will lead to Escanaba and the U. P. State Fair next week—Aug. 13-18.

The many barns on the fairgrounds will house the best dairy and beef cattle, sheep, poultry and horses of the Peninsula; and the big exhibition building will be crowded with entries from the region's homes, its schools and its factories.

Opening on Tuesday, Aug. 13, the fair will continue for six event-filled days, ending Sunday, Aug. 18, after a complete afternoon and evening program.

Many Free Events
There is no end of things to see and to do that are free at the U. P. State Fair, points out Ray LaPorte, secretary-manager. First of all, there's the free gate through which everyone may enter without charge, although there is a fee for parking autos on the grounds.

Grandstand performances on Wednesday, Thursday and Friday afternoons are also free, and will bring to the stage and track some of the best 4-H Club talent in the Peninsula. There's the Queen's Contest and Limbo Contest on Wednesday afternoon at 2 o'clock; and on Friday afternoon at 1 is the Model Airplane Contest.

Thursday afternoon is the eventful 4-H Club program starting at 2 and including the Talent Show, Saddle Show and Dress Revue.

Governor Here Wednesday
Gov. George Romney will come to the fair on Wednesday and other state officials and notables will be on the grounds for the afternoon and evening. The Governor will be honored at a noon luncheon at the House of Ludington and from there will be escorted to the grounds to tour the fair's many agricultural and education departments.

All events at the fair will be held on schedule regardless of showers, said LaPorte. The track in front of the grandstand has been given all-weather treatment and the covered stage means that the show will go on—come rain or shine.

Entertainment highlights of the fair week include:

George Gobel Coming
Tuesday afternoon and evening—Danny Fleenor's Hurricane Hell Drivers in an auto thrill show at 2 and 8:15 p. m. Safety Patrol boys and girls of the Peninsula will be guests at the fair that day.

Seney

Open House
Open House will be held at the Seney Town Hall from 2 to 4 p. m. Sunday, Aug. 11 in honor of Mrs. Clara Boonenberg who has retired from the Seney Board of Education after 27 years of service as treasurer.

Mr. and Mrs. Ralph Smithson have returned from a two weeks visit with relatives in Pontiac and Detroit.

Mr. and Mrs. Donald Smith and children have returned to their home in Plainfield, Ill. after spending a few days here with his mother, Mrs. Pearl Smith.

Janice and Dandice Carpenter were taken to Michigan on Sunday by their parents where they will spend a week at the Methodist Young People's Camp.

Mr. and Mrs. Bob Barry and family visited here on Friday with Mrs. Pearl Smith while enroute from Canada to their home in Chicago.

Mr. and Mrs. Ben Pyfer from Chicago visited here at the home of Mr. and Mrs. Alvin McDowell.

Mr. and Mrs. David Marinette and infant son visited here on Sunday with her parents, Mr. and Mrs. Wait Niemi.

Mr. and Mrs. W. Prillwitz and Mrs. Henrietta Prillwitz from Benton Harbor are vacationing at Driggs Lake and visiting at the home of Bert Furst.

Mr. and Mrs. George Wiertella from Detroit are visiting here this week with his mother, Mrs. John Wiertella.

Mr. and Mrs. Roland Chichester and Mr. and Mrs. Clifford Windorf from Marshall, Mich. visited here recently with Mr. and Mrs. Russell Bowersox.

Mr. and Mrs. Tom Tobin and family from Washington, D. C. left Wednesday for Holbrook, Ariz. They have been visiting here with his parents, Mr. and Mrs. Clyde Tobin. Tom is employed by the Internal Audit Dept. of the U. S. Forest Service.

Bill Boonenberg who has been employed by General Motors in Rio de Janeiro for the past six years has been transferred to Detroit. He spent the weekend here with his mother, Mrs. Clara Boonenberg.

Mr. and Mrs. Joe Thomas and children left Monday for their home in Grand Rapids after visiting here with her mother, Mrs. Clara Boonenberg.

Miss Elaine Rioridan from Detroit has been visiting here with her parents, Mr. and Mrs. J. J. Rioridan and at Trout Lake.

Mrs. Amelia Paajanen from Chicago visited here at the home of her niece, Mr. and Mrs. Norman Nelson.

Beverly Walstrom entered the Memorial Hospital at Manistiquette where she will undergo surgery.

Susan and Evelyn Lustila, daughters of Mr. and Mrs. Gerald Lustila of Detroit, visited here recently with their aunt and uncle, Mr. and Mrs. Nelson and with relatives in Germfask and Newberry.

Mrs. Roy McDowell, Pearl Smith, Lowell Maxson, Harvey Saunders, William Caffey and Perry Mark attended the O. E. S. dinner at Newberry.

Rose St. Martin, who recently graduated from St. Mary's School of Nursing in Saginaw has accepted a position at the General Hospital at Munising.

Mrs. Lyle Shaw Dies Suddenly

Mrs. Lyle (Helen) Shaw, 65, of 1414 S. 13th St., died in her sleep at her home at 6 a. m. today. She had resided in Escanaba for the past nine years.

Mrs. Shaw was born in Culver, Ind., on Nov. 4, 1897 and was a member of the Order of the Eastern Star in West Bend, Ind. and the Methodist Church in Culver.

Besides her husband she is survived by one stepson, Thomas Shaw, Escanaba, one son, Bud Rhoads, Indianapolis, one daughter, Mrs. Jane Becker, Miami, Fla., eight grandchildren, one sister, Mrs. Marge Reynolds, South Bend, and three brothers, Harry Speyer and George Speyer of Culver and Jack Speyer of Locust Valley, N. Y.

Friends may call at the Anderson Funeral Home after 7 p. m. today. Twilight services will be conducted at 7 p. m. Friday at the funeral home with Rev. D. Douglas Seelen, of the First Presbyterian Church officiating. The body will be removed to South Bend where services are tentatively set for Monday afternoon. Burial will be in South Bend.

Briefly Told

Iron Ore Handlers. Lodge 400, will meet Friday at 7 p.m. at the Croatian Hall.

An immunization clinic will be held Friday from 2 to 4 p.m. at the Delta County Building.

Escanaba police have issued a traffic code summons to William J. DeCook of 923 Stephenson Ave. for improper backing.

An Immunization Clinic will be conducted by the Delta-Menominee District Health Department from 2 to 4 p.m. on Friday in the County Building.

Barbershop singers of the Escanaba-Gladstone Bay de Noc Chorus will combine a rehearsal and steak dinner for their meeting tonight at the Ollie Nelson cottage on M-35. The gathering will start at 6 p. m. Members will bring their own meat and charcoal grills for outdoor broiling.

Miss Marion Agnes Sullivan, 1121 N. 16th St., a teacher at the Webster School, was among the 13 Delta area persons who received degrees from Northern Michigan University at its summer commencement exercises.

Aug. 2. She received a degree of Bachelor of Science. The Press regrets omission of her name in the listing.

Applications for a marriage license were made with County Clerk William E. Butler by the following: Donald Chamberlain of Ovid, Mich., and Susan Douglas of 709 5th Ave. S.; Frederic Welch of Pullman, Wash., and Marjorie Anthony of 1606 12th Ave. S.; Clayton Blair of 307 S. 24th St. and Jacquelyn Trine of Albion, Mich.; Orville G. Olson and Sadie Voigt, both of Rte. 1, Escanaba; Joseph Charon, Rte. 1, Escanaba; and Barbara Anne Bowden of 632 N. 20th St.; James LaLonde of 403 Wisconsin Ave., Gladstone; and Carol Hebert of Rte. 1, Ensign; and Richard Perlick of Manistiquette and Darlene Borman of Rte. 1, Escanaba.

Camp Building
INTERLOCHEN — Construction of Interlochen's new Charles Stewart Mott Language Arts Building will begin shortly, according to Dr. Joseph E. Maddy, president and founder of the National Music Camp and Interlochen Arts Academy.

"A \$200,000 grant from the Mott Foundation made it possible to begin construction," said Dr. Maddy. The building will be designed by Alden B. Dow and is expected to be completed within a year.

Patients admitted to St. Francis Hospital on Wednesday included: Mrs. Bruce Towler, 326 Main St., Rapid River; Andrew White, 1327 N. 18th St.; Thomas Swift Sr., Bark River; Mrs. Ernest Krause, Bark River; and Norman Cole of 1324 Minneapolis Ave., Gladstone.

James E. Pryal

Principal speaker at the 14th annual Upper Peninsula History Conference in Sault Ste. Marie Friday and Saturday will be Dr. Philip P. Mason, architect and associate professor of history at Wayne State University. Dr. Mason, who has done research on the expeditions of Henry Rowe Schoolcraft and written a book on his findings, will speak on "Schoolcraft and the Indian Agency of the Upper Lakes."

Delta May Get Muskeg Research In Tech Project

HOUGHTON — Michigan Tech has been awarded a \$43,366 Army research contract to develop an analytical method for determining vehicle mobility in muskeg, a type of grassy bog, according to Dr. R. L. Smith, coordinator of research at Tech.

The contract is the result of the combined efforts of Dr. W. M. Haas, professor of civil engineering, and E. W. Niemi, professor of mechanical engineering. They will co-direct the project, assisted by Richard Bayer, professor of mechanical engineering, and several graduate students.

The award was made by the U. S. Army Mobility Command. The muskeg research will be performed for the Land Locomotion of the Army Tank-Automotive Center, Detroit, under the direction of Laboratory Chief Ronald Liston.

Vehicle mobility in muskeg is not an isolated problem, the Tech professors said. Not only is the Army concerned with it, but so is the Canadian government and commercial interests in the United States, Canada and several northern European countries where muskeg-type land is quite prevalent.

It is anticipated the work done by the Tech group will be correlated with similar work being done in Canada under Dr. N. W. Radforth of McMaster University, who has pioneered in the scientific studies of muskeg.

Muskeg studies have included three areas of primary interest: building construction on muskeg; use of muskeg peat in agriculture; and traversing muskeg area with vehicles, which will be explored at Tech.

Ensign 4-H Club Prepares For Fair

The Ensign's 4-H Club will have 38 exhibits displayed at the U. P. State Fair. Committees selected to work on the fair displays consist of Mark Nelson, Ruth and Regina Olson, Darnette Peterson, Judy Holmgren and Mike Rasmussen.

Recognition was given to Cynthia Safford and Susan Sundberg for their accomplishments at Camp Shaw. Cynthia's original creation "My Pledge" and Susan's demonstration on alterations of patterns earned the girls trips to East Lansing for the 4-H State Show to be held Aug. 26-30 at Michigan State University.

The club's September meeting will be the presentation of awards and will include an outdoor meal for club members and their families, Donna and Mike Rasmussen will be host and hostess.

Being able to take things as they come, and live with them is another form of success.

James E. Pryal

Nominate Pryal For Postmaster

The nomination of James E. Pryal as postmaster at Escanaba was sent to the Senate by President Kennedy on Wednesday, the Associated Press reports.

Pryal was named acting postmaster in April, 1961, succeeding the late Mrs. Regina Cleary, who retired after holding the position for 27 years.

The son of the late Mr. and Mrs. Joseph F. Pryal of Escanaba, he attended St. Joseph's School here and graduated from Escanaba High School in 1927. He was employed in various capacities with firms in Argentina, Alaska and this country prior to World War II.

He served with the U. S. Navy from 1940 to 1945, including 36 months of combat duty in North Atlantic and the South Pacific. Prior to his acceptance of the acting postmastership he was employed in Michigan with a manufacturer of prefabricated steel buildings.

Active in politics, Pryal was field worker for the Democratic State Central Committee in the Upper Peninsula and for a time was a deputy state auditor general.

Space Agency's Head To Address Tech Graduation

HOUGHTON—Dr. Robert R. Gilruth, director of the National Aeronautics and Space Administration Manned Spacecraft Center at Houston, Texas, will deliver the address at Michigan Tech's second annual summer commencement here Aug. 22.

Dr. Gilruth will be awarded an honorary Doctor of Engineering degree at the commencement.

He will be accompanied to Houghton by Mrs. Gilruth and Al Chop, his deputy public affairs officer. Both Dr. Gilruth and Chop are former residents of Michigan's Copper Country.

Dr. Gilruth lived in Hancock, across Portage Lake from Houghton, when his father, Henry A. Gilruth, was superintendent of schools there from 1920 to 1924. Chop was born in nearby Calumet and attended public school there.

The NASA Manned Spacecraft Center is the nation's experienced management agency in the field of manned space flight research and development, and has been responsible for Project Mercury since its inception. The Center is presently engaged in conducting Projects Mercury, Gemini and Apollo.

JAMES G. WARD Jr., Associate Publisher JEAN WORTH, Editor

Promoting The U.P.

Harold B. Putnam of Detroit, publisher of the booklet "North to Adventure: A Travel Guide to Michigan's Upper Peninsula," has made a bigger investment in promoting the Upper Peninsula than almost anyone who lives here. He intends, of course, to profit from his interest, it is not altruistic, but he wishes that he could get more cooperation in promoting the U.P. so that it would benefit from the promotion and he would profit in the process.

"We ask only that the U.P. organize itself to make effective use of these selling tools," says Putnam "not only to attract the tourist, but to sell him on the idea of making the U.P. the focal point of his vacation—not a throughway. Organization planning has been remarkably successful wherever it has been tried.

"For example, two U.P. businessmen who buy 1,000 copies of "North to Adventure" each year make money on them even though they sell the books at a discount.

"At the University of Michigan demand for the filmstrip based on our book is created by publicity and advertising, theirs and ours. The University gets out at its own expense systematic mailings to prospects. This cooperative arrangement is producing steady sales. If we should retire or move away, continued distribution of the U.P. story through this channel is assured.

"However, in the tourist area, no such organizational plan exists. Sales are haphazard because dealer outlets are spotty. In one of the Upper Peninsula's largest cities there is not a single place where "North to Adventure" can be bought.

School distribution is fine, but from the standpoint of the tourist industry less direct. According to the Tourist Council some 9 to 10 million tourists come to Michigan annually. A very small percentage ever see a copy of "North to Adventure."

The Putnams (Mrs. Putnam wrote the text of the book and he made the photographs) have furnished the U.P. with a valuable promotional book. If there were no such current picture book of the area's attractions for visitors we would feel the need to create one. The Putnams have done that. It seems only good business to cooperate with them in the sale of their fine book to make Upper Peninsula visitation more meaningful.

Promotion is one of the skills of modern recreational business that areas do not come by easily or without effort. It is almost always an evolutionary, cooperative effort which involves many persons and agencies, which means that it is difficult to organize, finance and maintain. Lucky the area which learns this lesson well, it is on the way to realizing the potential of selling its resources to visitors.

The Doctor Says:

Drug Effects Curbed

By Dr. Wayne G. Brandstadt, M.D.

The chemical revolution of the mid-1930s has transformed the practice of medicine and has brought many infections and illnesses under control. To see raging infections abate within a few hours after giving sulfa drugs was a new experience to us doctors.

Since then, we have seen the advent of antibiotics, hormonal compounds and antituberculosis agents, pills for diabetes, tranquilizers, drugs for high blood pressure and a host of other potent and highly effective agents.

Today's vital uses of such prescription drugs bespeak the successes of expert medical supervision and research in preventing or lessening the undesirable side effects so that a person who needs a certain drug may enjoy its benefits with safety. Physicians' knowledge of drug reactions and how to prevent them is a measure of medical progress.

It is to be expected that as newer, more potent drugs with greater effectiveness against certain diseases or symptoms are discovered, the problem of side effects will increase rather than diminish.

A drug that will control cancer or heart disease will surely require the most careful administration to prevent such side effects. Each step toward powerful, efficient action in a drug is a step away from harmlessness.

It is to be expected, too, that dramatic accounts of disorders attributable to the taking of certain new drugs will appear and will cause general alarm. The

sober analysis of cause and effect relationships is constantly being undertaken by the best minds in medical science and the government licensing agencies.

This problem is made more difficult by the fact that many disorders occur spontaneously in a person who just happens to be taking a certain drug, and by the fact that the patient is often taking other drugs at the same time.

Very few drugs are so specific in action as to have no effect other than the one desired. Aspirin, for example, reduces fever, deadens pain, lowers the blood sugar level in diabetics and exerts some actions similar to those of cortisone. Some of these effects depend on the size of the dose and how long the drug is taken. Even though this drug has been used for more than 50 years, the mechanisms of its various actions are still poorly understood.

The secondary actions of a drug are not always undesirable. One of the antihistamines which relieves hay fever also causes drowsiness. This would be undesirable for a truck driver during his working hours. Yet, if he were to take this same drug just before going to bed, it might give him a restful sleep as well as relieve the stuffiness in his head.

Avoidance of side effects depends, therefore, on your doctor's knowledge of the drugs he prescribes for you, on his knowledge of your personal peculiarities and your needs and on faithful adherence to his instructions. Given these ingredients your doctor can help you relief from many conditions that were beyond such help a few years ago.

"Relax on That One. How About Trying Your Hand Over Here?"

Edson In Washington

By PETER EDSON

WASHINGTON (NEA)—A year before the Republican National Convention nominates its 1964 presidential candidate in San Francisco, the job seems up for grabs.

Sixteen possibilities are already being mentioned. More may be expected. The fact that so many nominees are being put in the running indicates nobody has the nomination sewed up.

The Current Theory of some observers that New York Gov. Nelson Rockefeller and Arizona Sen. Barry Goldwater have now knocked each other out on the civil rights and far right issues is probably premature. There is still plenty of steam behind both drives, though neither man has formally announced.

The factor which brings out all the other presidential possibilities seems to be a fear that Rockefeller and Goldwater will have about equal die-hard strength at San Francisco, with neither being able to get a majority for the nomination.

Since both Rockefeller and Goldwater have their enemies as well as their friends, the hunt is on for a compromise candidate nobody is mad at and who would satisfy a majority in the badly split GOP.

This is what brings out the favorite son suggestions. They would control state delegations for the opening ballots to establish bargaining positions. There are eight so far.

In preferred positions are Gov. George Romney of Michigan, who is not far behind the two leaders, and Gov. William W. Scranton of Pennsylvania. There are two other governors, James A. Rhodes of Ohio and Mark Hatfield of Oregon.

In Congress there are three favorite son senators—Gordon Allott of Colorado, Clifford Case of New Jersey and Thurston B. Morton of Kentucky, though the last two disclaim any interest. Finally, Rep. James W. Byrnes of Wisconsin.

Then You Come To the really dark horses of whom there are six so far. Sen. Thomas H. Kuchel and ex-Sen. William F. Knowland of California are being proposed to head their state delegation as favorite son candidates for bargaining purposes. There is an element here of keeping the ultraconservatives from capturing the delegation and going for Goldwater.

While former Vice President Richard M. Nixon—now a New Yorker—has announced he will not be a candidate in 1964, he does expect to have a loud voice in naming the candidate. If offered the nomination as a compromise, he'd probably take it.

Gen. Lucius D. Clay is being boomed for the nomination by a committee headed by former Rep. Hamilton Fish of New York. Gen. Clay says he is not a candidate. Mr. Fish says the general would be responsive to a draft.

Sen. John J. Williams of Delaware is being suggested by another group headed by Nicholas L. Kruysman, a New York envelope manufacturer. Sen. Williams has made a great record as an exposé of government waste and inefficiency. He has considerable support from businessmen. But in his home state he is regarded more as a vice presidential possibility.

All the presidential possibilities who don't get top place on the GOP ticket may also be put in this class.

The Most Intriguing dark horse

who has just come out of the shadows is Dr. Milton S. Eisenhower, Ike's brother, who is now president of Johns Hopkins University. All Republicans agree that the Eisenhower name is still magic with voters.

Dr. Eisenhower recently took over chairmanship of a Critical Issues Council for the Republican Citizens Committee. This is the group organized at the Eisenhower farm a year ago to muster support from independent and Democratic voters.

The Citizens Committee has insisted all along that it is not an imitator of the Democratic Advisory Committee which operated under the late National Committee Chairman Paul Butler during the Eisenhower administration. But many responsible Republican leaders now admit that the policy papers prepared by DAC are responsible for John F. Kennedy being in the White House today.

If Dr. Milton Eisenhower could perform a similar miracle for the Republicans within the next year, it is conceded he might be the dark horse of destiny they are looking for.

Memory Lane

By J. R. LOWELL

Ten Years Ago

Polio cases are rare in Finland and that country never had an epidemic of the disease, Dr. Ester Virkkunen, of Joensuu, Finland, stated yesterday at a meeting of the Escanaba Business and Professional Women's Club. She described no reason for this happy state. On the other hand, she said, tuberculosis is a serious problem in her country.

Leonard Shay, Germfask Lumberman, speaking before the Manistique Lions Club last evening, told of his recent motor tour through England. He said road courtesy practiced by the English people, made his trip particularly delightful.

Dr. Charles E. Kee, Gladstone physician and surgeon, has been called to active duty in the U.S. Navy.

Twenty Years Ago

Local draft boards have received instruction from the national headquarters that fathers of draft age are to be reclassified in order that draft quotas might be filled by Oct. 1.

A survey is being made among farmers in the Gladstone area to determine the demand for a canery in Gladstone.

J. S. (Jack) Wilde, of Manistique, has acquired a reputation as a gardener. One of his tomatoes has 70 full sized tomatoes on it.

Thirty Years Ago

A heavy pall of smoke hangs over the Escanaba area. There have been many fires in the Upper Peninsula and much concern is felt because the forest areas are tinder dry.

Farm lands repossessed by the state for delinquent taxes may be resettled if certain conditions warrant it. Delta County now has 15 settlers who have taken over on a homestead basis, but subject to payment of a nominal price per acre for the land. Most of the farms are in the vicinity of Schaffers and Cornell.

Joshua P. Johnson will be the principal speaker at the Kiwanis district convention which opens in Escanaba today.

Letters To The Press

Contributions to this column are welcome. They should be brief and must be signed, but signatures will be withheld on request.

DON'T RISK VASE

Now that fair week is now approaching I would like to warn people if they have anything to bring to the fair that they may never see it again. My daughter being in 4-H Club work brought in cut flowers, I let her use my vase, when I went to pick the vase and ribbon up it was gone, someone had put her flowers and ribbon in a tin can. The vase was not an antique or worth a lot of money, but was a first gift from my husband 19 years ago so I treasured it for that reason. I hope who ever has it enjoys it as much as I did.

Mrs. Philip Caron Wells

So They Say

Countries that practice death control must also practice birth control or prepare now for a time when their people will have to live standing up because there won't be room to sit or lie down.—Dr. Clement Market of Johns Hopkins University.

What shakes you most is seeing little kids in traffic accidents. . . I don't mind seeing the dead, it doesn't bother me so much. It's watching them die that breaks a person up. I've had my stomach full of it.—Stanley Perkins, 33, quitting after eight years as a California Highway Patrolman.

Is milday so insensitive and such a slave to fashion that she would knowingly be a party to the extermination of one of nature's most magnificent creatures?—National Audubon Society, appealing to women to stop buying leopard skin coats because the animal faces extinction.

I understand that as part of the campaign to modernize Britain, the Prime Minister has ordered a two-way mirror to be installed in one of the walls of the cabinet room so that he can find out what is going on inside.—Frank Byers, British Liberal party official.

What we may have learned is that monkeys and man are more closely related than some of us wish to admit.—Dr. G. Robert Cooney of National Institute of Allergy and Infectious Diseases, studying monkey-transmitted malaria.

I wasn't in favor of it. I don't like to see people memorialized while they are still alive. I might go shoot someone and they would have to take it down.—Harry S. Truman, referring to statue of him erected in Athens.

I am not against the United States, but a lot of people believe that if you live in this hemisphere you must get down on your knees and bow to capitalism.—Prime Minister Cheddi Jagan of British Guiana.

The artist, if he is to create out of his heart's blood, must be free to assail any institution, any status quo, any sacred cow, let the chips fall as they may.—Abby Mann, U. S. film writer, to an audience of Russian moviemakers.

The United States is expected to be the model. No higher compliment could be paid to us. So our failures to live up to our proclaimed ideals (of freedom) are noted, magnified and distorted.—Secretary of State Dean Rusk.

Peninsula's River Flows Major Economic Resource

River flows are like money in the bank for the areas that have them in large and sustained volume.

The importance of water to industry, recreation and other elements of the economy has always been evidence, but it comes into increasing importance because of the huge demands of modern industry for it as a coolant, vehicle for materials, dilutant and for other usages, and because fresh water is in diminishing supply.

Not much is known about our river flows in terms of exact data. To be reliable, flow statistics should cover years so that aver-

short record and a nearby long term gage.

Relative to other areas of the nation, Michigan's stream gaging programs had a late start and few gaging records precede the early 1930s, so Michigan's records represent a short period sample of drought experience.

Hydrological Cycle

While major interest of the study is in stream flow, the variations in drought observed are explainable only in a broader framework of hydrological cycle: evaporation - condensation - precipitation.

Practically all water with which man is concerned originates as water vapor in the atmosphere. As the vapor rises and is cooled, condensation results in cloud formations in which droplets form, grow in size and eventually fall as rain or snow.

Some precipitation is reconverted to water vapor during its fall and some is intercepted by vegetation and is evaporated. Of the residual precipitation reaching the ground, some infiltrates, some runs off over the surface to natural stream channels, some evaporates from water and land areas, and some is taken up by the root systems of vegetation and returned to the atmosphere as water vapor through the process of transpiration.

When the rate of precipitation exceeds the rate of infiltration, surface-runoff occurs, the excess draining to the channels of the creeks, streams and major river systems with outlets into the inland lakes and the ocean.

Ground Water

The fate of that portion of precipitation which is absorbed and infiltrates is more complex. Some remains in the upper soil subject to evaporation and transpiration (vaporizing by vegetation.) Some may penetrate to lower levels and form great reservoirs of underground water, saturating the porous rock or soil. The surface of the saturated zone is the water table.

Depending on local geology, ground water moves slowly to outlets where the water table meets lakes and streambeds and is returned to the body of surface water. It is this ground water contribution which maintains stream flow during the dry weather periods. The size and variance of this source of water primarily determines the flow characteristic of streams.

Average annual precipitation in the Upper Peninsula is 29 inches, increasing from 28 inches in the south to 30 inches along Lake Superior. Precipitation increases

southward to 34 inches in the southernmost part of Michigan.

Watershed Divide

The Upper Peninsula's watershed divide is much nearer Lake Superior than Lake Michigan. The Water Resources Commission study map shows only the Presque Isle, Iron and Ontonagon Rivers flowing into Superior west of Keweenaw and the Sturgeon flowing into Keweenaw Bay. From that point all the way across the Peninsula to Whitefish Bay on the east there is no river drainage system shown, although the Yellowdog, Huron, Deal, Carp, Au Train, Sucker, Two Hearted and other sizeable streams flow into Superior.

The bigger drainage systems flow into Lake Michigan. They include the Menominee, biggest of the Peninsula, the Cedar, Escanaba, Ford Rapid, Whitefish, Manistique, Black, Carp and Pine.

The Menominee basin drains an area of about 4,012 square miles, about two-thirds in Michigan and the rest in Wisconsin. It drains parts of Baraga, Iron, Marquette, Dickinson and Menominee counties and flow has been highly regulated by power developments. As result the low flows reported for many of the gages in the basin are not natural drought discharges, but releases of artificial storage.

River Flow Minimums

The Escanaba River basin drains approximately 830 square miles in Dickinson, Marquette and Delta counties. The basin is elongated and irregular in shape, measure 67 miles by 26 miles wide at its widest.

The Manistique basin drains 1,415 square miles in Delta, Alger, Schoolcraft, Luce and Mackinac counties. It is fairly regular in shape and measures 42 miles by 35 miles wide.

The study reports that the gage near Ishpeming on the Middle Branch of the Escanaba had a minimum 7-day average flow on Aug. 29-Sept. 9, 1954 of 27.9 cubic feet a second. The Cornell gage on the Escanaba had a minimum 7-day average in 1951-54 of 247 cfs in July 20-26, 1954.

The Menominee River at Twin Falls near Iron Mountain had a minimum 7-day average flow in the 1914-54 period of 383 cfs from Sept. 29 to Oct. 5, 1925. (By contrast the minimum 7-day average in 1951 was 1,736 cfs June 12-18.)

The Manistique River near Manistique had a minimum 7-day average flow in the period 1938-54 of 294 cfs in Sept. 30-Oct. 6, 1948.

An Ohio thief stole eight electric fans from a hardware store. The heat was on and he landed in the cooler.

How important are the things you're saving for?

The college education for your children? The retirement plan for yourself? The dream home you're planning to build one day? Whatever your saving goals are, they're probably pretty important to you anytime.

And while you may not have thought of it this way before, the money you save to build a better future for your family is a pretty important help to your country in peacetime too, because the financial

strength of our nation depends on the individual financial strength of citizens like yourself. Only strong Americans can make a strong America.

Today Americans have over \$46 billion invested in Series E and H Savings Bonds—a powerful answer to the people who threaten to bury us economically.

So don't ever stop buying U. S. Savings Bonds. They're one of the best investments you can make for your future.

Keep freedom in your future with U.S. SAVINGS BONDS

The U.S. Government does not pay for this advertising. The Treasury Department thanks The Advertising Council and this newspaper for their patriotic support.

ESCANABA DAILY PRESS

Centennial Report Ready On Aug. 29

Escanaba's Centennial has been rated a success by observers and participants—but just how successful it was from the dollars and cents standpoint will not be fully determined until later this month.

"We're fairly certain the Centennial was a financial success as well as a successful celebration, but the final tabulation and audit will not be made until a report is presented to the City Council on Aug. 29," said Harold Cloutier, Centennial activities director.

The City Council had underwritten the Centennial and the executive committee of the celebration is composed of Dean Shipman, attorney; George Harvey, city manager; and Walter Lewke, Chamber of Commerce manager.

A Centennial headquarters was established downtown in a model American Timber Homes building which was, at the close of the celebration, sold to the Escanaba Rotary Club for use at its camp for crippled and handicapped children on the Ford River Shore.

Hundreds of persons joined in working on committees that staged a pageant; wrote and published

The Century Book, a history of Escanaba; arranged a gigantic parade; sponsored a Centennial Ball; conducted a queen's contest; and arranged for a variety of entertainments and events that brought thousands of visitors to Escanaba.

Cloutier said that in the next couple weeks it is essential that all outstanding Centennial merchandise, books, money and other related items be reported to him, by calling ST6-0424 or ST6-1938.

Beer Truck Hit By Train; 2 Dead

MICHIGAN CITY, Ind. (AP)—A mile-long freight train smashed a skidding beer truck nearly head-on today, triggering a huge pile-up of railroad cars under which the trucker and the train's head brakeman died.

The semi-trailer truck cab—its driver pinned inside—was buried under the twisted wreckage of 41 freight cars and the three diesel engines which were pulling the Chesapeake & Ohio Railroad train.

State police identified the dead as William Warren, 42, Grand Rapids, Mich., the trucker, and Loyt Mosey, about 40, Grand Rapids, head brakeman on the 83-car train.

No official estimate of the damage was made immediately, but a state trooper said it probably would reach a million dollars.

Two other crewmen—engineer Lloyd Chambers, 65, Grand Rapids, and fireman Glen Maycroft, 32, Muskegon, Mich.—were injured and taken to Michigan City Memorial Hospital. Maycroft was released after treatment for cuts and bruises. Chambers was admitted in fair condition.

Mrs. Le Clair's 15-year-old daughter, Karen, was rescued in shallow water near the steep drop-off into which the car plunged. She told police she saved herself by pushing through a window in the family car as it was sinking.

Karen could not immediately explain what caused the accident. She said her mother had been acting strangely for several days.

Car Plunges Into River At Trenton; Two Women Killed

TRENTON (AP)—Two women were killed Wednesday when their car mysteriously ran off the end of a street and plunged into the Detroit River just off Trenton's business section.

Dead are Mrs. Janet T. LeClair, 42, of Dearborn, a teacher of deaf children at the Rackham School in Ypsilanti, and Mrs. LeClair's mother, Mrs. Lottie Tainish, 78, of Detroit.

Mrs. Le Clair's 15-year-old daughter, Karen, was rescued in shallow water near the steep drop-off into which the car plunged. She told police she saved herself by pushing through a window in the family car as it was sinking.

Karen could not immediately explain what caused the accident. She said her mother had been acting strangely for several days.

Store Worker, 93, Dies On His Job

BLOOMING GROVE, Tex. (AP)—Richard R. Massengale appeared for work as usual at a feed store Wednesday.

He accepted congratulations from several friends because it was his 93rd birthday.

Then Messengale said he felt ill and stretched out on a bench to rest. A little later fellow workers found he had died.

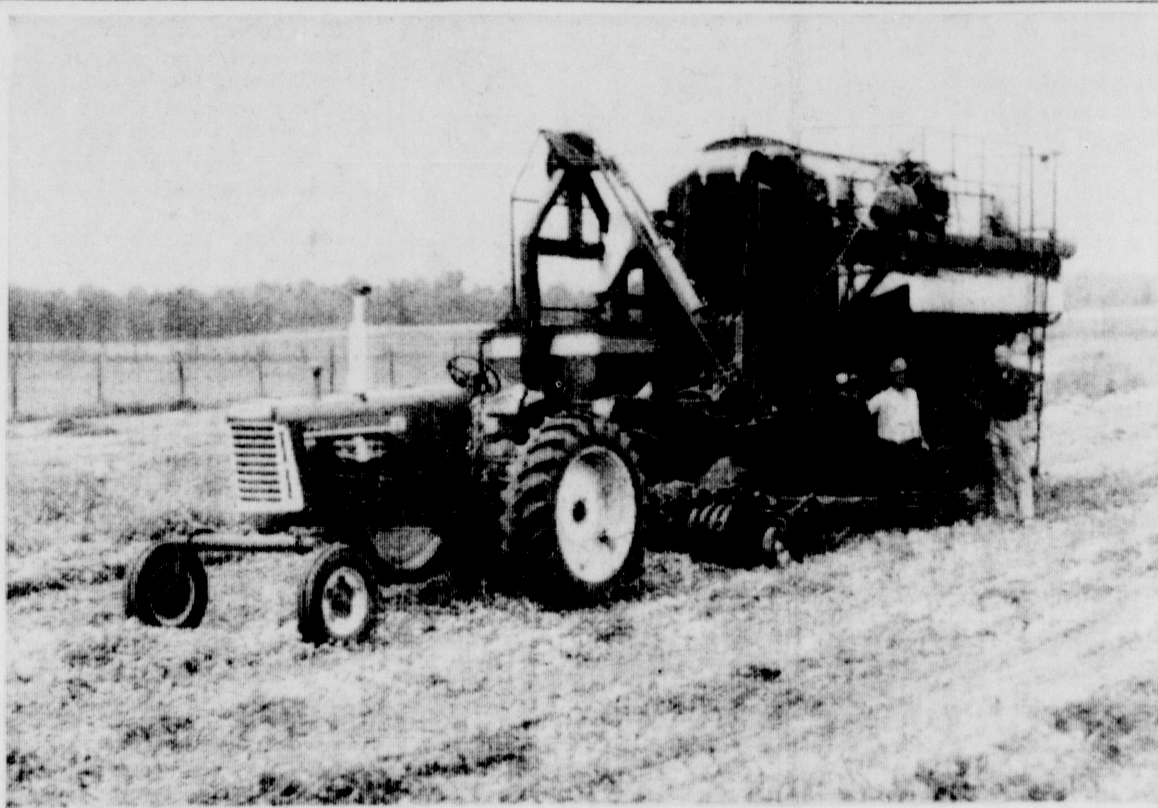

Catcher Caught

KENOSHA, Wis. (AP)—Kenosha's dog catcher Ralph Thomas forfeited a \$10 bond in County Judge Urban Zievers' court on Wednesday.

The charge—allowing his dog to run loose.

Another large pea combine was put into operation this year by the Hansen Canning Co. of Gladstone. The company now has three machines that can handle 30 acres a day. The picture was taken on the Daniel Barron Farm which had the largest pea acreage in Delta County this year. Pictured from left are, Daniel Barron and George Hansen, Jr. (MSU Photo by J. L. Heiman)

Famed Civil War Locomotive To Be Shown In Detroit

DETROIT (AP)—What probably is the most famous locomotive in railroading history comes to Michigan today.

It is "The General," a 108-year-old engine that rocketed to fame in the "great locomotive chase" of the Civil War.

And coming with it will be the granddaughter of one of the raiding engineers, Mrs. Mearl Scott of Walbridge, Ohio. Her grandfather was Wilson Brown, one of 20 Union Army secret agents who stole "The General" in a daring plot to cut Confederate communication and supply lines.

Steaming in under its own power, "The General" is scheduled to run from Detroit's New York Central Station today to Greenfield Village in suburban Dearborn, where it will remain until Aug. 17 chugging visitors over a half-mile route.

Garden Club Will Hold Cook-Out

NEWBERRY — The members of the Newberry Garden Club will have their annual cook-out summer breakfast at the Luce Roadside park on M-28 at 8 a.m. Monday, Aug. 12.

Mrs. W. M. Fretz and Miss Emma Kalmbach are in charge of arrangements. Coffee will be furnished, but members must bring their own breakfast makings. There will be election of officers for 1964 and horticultural reports by Mrs. Ira Clark and Mrs. Mary Labrow.

Anyone needing a ride may contact Emma Kalmbach at 754.

Hotels Picked

SAN FRANCISCO (AP)—The Fairmont Hotel has been chosen as headquarters for the 1964 Republican National Convention. The rival St. Francis Hotel was picked as the official hotel for distinguished guests.

The convention begins July 13 in the Cow Palace.

Early Drought Hurt Pea Crop

The peas are all harvested and canned for another year in Delta County. While the acreage was up considerably this year, the total yield did not come up to expectation, says J. L. Heiman, Delta County Extension director.

The early summer drought cut yields down in some cases to a 50 per cent crop. Some of the later planting and later producing varieties produced higher yields.

"It was an unusual growing season for peas," said Heiman. "While peas do well in cool climate, they need a good supply of moisture. Following the plantings this spring, very little rain fell. The rains when they did come were too late to help the early maturing Alaskan variety."

"Yields are also down in Wisconsin for the same reason, lack of moisture. Wisconsin is one of the leading states in pea production for canning and has been rated No. 1 in acreage and total yield. Some fields in Wisconsin this year were left unharvested because they did not yield enough to put the machinery in and make it pay out."

"Farmers should not be discouraged by the results of this year's production. We have had some wonderful yields in the past and will have some again when moisture is more plentiful. Now that the handling of the pea crop has been completely mechanized, it very few men hours go into the production of the peas before they reach the factory."

Newberry

Play - Off Tonight

In Monday night's game the Collision Shop outscored Bancroft Dairy 10-2 in the Little League action. Tuesday, Barretts scored 5 and Red Owl 0, resulting in tie between Barretts and the Newberry Collision Shop. The play-off game will take place tonight at 6:30 p.m.

Driver Ticketed

Thomas Jordan, 18, was given a summons for violation of the basic speed law, too fast for conditions, by State Police after his car left the road and hit a tree at 9 a.m. Tuesday on County Road 412 east of Pine Stump Junction. According to officers, Jordan was watching some animal in the woods, and while taking his eyes off the road the mishap occurred. A passenger in the car, James Harvey got cuts on his head, when he struck the windshield. He was treated at the Tahquamenon General Hospital.

Miss Susan Rindquist, 21, of Detroit received a summons for violation of the basic speed law by State Police after she hit the rear of a car driven by Fred Slabaugh, 20, of Elkhart, Ind. Both were traveling west on M-28 Tuesday. Slabaugh stopped for a truck that was making a turn when Miss Rindquist struck the rear of his car. The front of her car had considerable damage.

Trial Reset

The Justice Court trial of Max Simmons of McMillan that was set for Aug. 10 at the Pentland Township Hall, has been postponed until Thursday, Aug. 22, and will be at the same place, with Justice Newton Ford presiding. The People's case will be handled by Prosecuting Attorney J. P. Shimmens, while Simmons will be represented by Attorney Robert Wood of Newberry.

New Jet Carries 96,000-Pound Load

MARIETTA, Ga. (AP)—The Lockheed-Georgia Co. plans to roll out on Aug. 22 the first jet-powered aircraft designed strictly as a cargo plane. Lockheed announced Wednesday the unveiling date for the C-151 Starlifter. The plane, which has a wing span of 160 feet, will carry a commercial payload of 96,000 pounds.

Shriner's Hospital Aids 'Poppy Girl'

By MRS. I. R. NELSON

BARK RIVER — Janet VanEnkevort, Poppy Girl for the Rheume-Knauf American Legion Auxiliary Poppy Days last May, entered the Shriner's Hospital in Minneapolis Tuesday. There are about 60 children under 15 years of age, all with bone diseases, at the hospital.

Janet, six-year-old daughter of Mr. and Mrs. Donald VanEnkevort of Bark River, and her four-year-old sister, Mary Beth, went with their parents to Minneapolis Monday for her admission to the hospital Tuesday, where she will receive X-rays, tests, examinations and corrective measures for a crippled leg.

The VanEnkevorts were taken on a tour of the hospital which included the three children's wards, nursery and recreation rooms. Mrs. VanEnkevort, a registered nurse, said the hospital has a large staff of resident physicians, surgeons and nurses. All clothing is made and supplied by the hospital auxiliary with parents furnishing only the shoes for their youngsters.

The nurse guide told of the full program of recreation and entertainment for the patients. For instance, a picnic on Wednesday for all the children, and a full length movie every Saturday afternoon. On Aug. 10 the Nebraska football team, who will play a benefit game for the hospital, will visit the hospital and dine with the children. A circus will be showing in Minneapolis later this month and all the children will attend.

Janet, whose sixth birthday will be Aug. 19, was told she will have a special party and all the children will sing "Happy Birthday" to her.

Janet and Mary Beth were enthralled with everything they saw and heard and Mary Beth turned to her parents and said, "I think I'll stay here with Janet!"

Janet Van Enkevort

Young Democrats Leader Killed In Airplane Wreck

LIGONIER, Pa. (AP)—Roy Schafer, president of the national Young Democrats Organization during the election of President Kennedy, was found dead today in the wreckage of a small plane on Laurel Mountain.

A passenger, Philip Asher, 33, of Bethel Park, a Pittsburgh suburb, survived the crash. He is an engineer for radio station WSSW in Pittsburgh.

State police found the wreckage some 18 miles east of this southwestern Pennsylvania community.

The plane had been reported overdue from a flight from Pittsburgh to Harrisburg.

Schafer, 37, formerly was legislative secretary to former Gov. David L. Lawrence.

Lansing Rail Fans Offer To Buy 21-Mile Line

CADILLAC (AP)—Hoping to operate a new passenger excursion train with a steam locomotive, three Lansing railroad fans said Wednesday they had offered to buy a 21-mile Pennsylvania Railroad line.

Clifford F. Lenten said he and two other members of the Rail Fan Club of Lansing have formed the C & LC Railroad Co. They offered to buy a line between Cadillac and Lake City.

The line would continue its present freight operations, Lenten said.

The group purchased a 70-ton steam locomotive in San Francisco and is having it reconditioned in Marquette.

It would be the only one operated in the Lower Peninsula if the Interstate Commerce Commission approves the railroad line purchase.

Viet Nam Strife Blamed On U.S.

TOKYO (AP)—President Ho Chi Minh of Communist North Viet Nam said today peace could be restored in South Viet Nam if the United States pulled out its arms and men.

A broadcast from the North Vietnamese capital of Hanoi quoted Ho as blaming "U.S. interventionists" for the strife in South Viet Nam.

Seems You Can't Escape Taxes

By RALEIGH ALLSBROOK

NEW YORK (AP)—If you see red when you think how much the tax collectors get from your pay, take consolation. Millions of other persons around the world share your feelings.

An Associated Press survey showed that in four of six world centers, families of modest incomes pay 13 to 20 per cent of their incomes in taxes.

In the higher pay brackets, the tax percentages range from 45 to 77 per cent.

An imaginary bus driver and a \$100,000-a-year man were selected in each location, each with a wife and two children. Because of the complexity of various tax structures, estimates had to be used on a number of points.

An average bus driver in New York earns \$5,824, more than dou-

ble the pay of drivers in other countries.

But he pays \$568 in federal income tax and \$603 in other taxes, totaling 20 per cent of his pay.

The average bus driver in Frankfurt, on an income of \$2,460, hands over 17 per cent—income tax of \$120 and other taxes of \$297.

The London bus driver has 14 per cent taken out of his \$2,080 wage. His income tax is only \$5.35. But other taxes total \$289.

In Paris, the bus driver's wage comes to \$1,872, but under the

country's regulations he also gets a family allowance of \$348 from his employer.

The wage figure exempts the man from income taxes. His indirect taxes amount to \$290 or 13 per cent.

Of \$1,547 in pay, the Tokyo bus driver pays 8 per cent in taxes—\$59 for income tax and \$64 for others.

And in Rio de Janeiro, the driver makes \$1,270, but his tax bill is the lowest of all—6 per cent. His income tax is \$10 and other taxes amount to \$70.

The comparison in taxes for the \$100,000-a-year man moves Rio de Janeiro from the lowest spot to one of the highest. More than 65 per cent of the Rio man's earnings go to the tax collector.

His federal income tax alone comes to 65 per cent. An approximate figure for his other taxes could not be determined.

In the United States, personal income of workers totaled \$440 billion last year. They paid out \$128 billion in various taxes.

The Tax Foundation, a non-profit organization, estimates that

Pick Committee, Democrats Urged

LANSING (AP) — Gov. George Romney appealed today to the Democratic Party to name its permanent members to a bi-partisan legislative apportionment committee "to avoid a chaotic situation."

Romney issued his appeal in a joint news conference with Secy. of State James Hare, who said if no solution is found to the apportionment problem under the new constitution there was danger of the state winding up with no legislature in 1965.

"This is impossible to conceive," said Hare, "because there would be no appropriations and no government."

The new constitution establishes an eight-member apportionment commission charged with redistricting both houses of the legislature under a new formula.

Republicans already have named their four permanent members, but Democratic officials have indicated they may appoint only temporary members who would be replaced with others at a later date.

Complicating the situation is an opinion by Atty. Gen. Frank Kelley, Democrat, who said the commission cannot be named officially until after the new constitution goes into effect next Jan. 1.

But Romney, who was a member of the Constitutional Convention, said he believed the intent of the convention was to have the apportionment commission convene within 30 days after the vote adopting the new constitution was certified officially.

Hare explained that because of the timetable built into the constitution, if the constitutional provision is not effective until Jan. 1, there would not be time to hold an election as scheduled.

Zolton J. Ferency, Democratic State Central Committee chairman, told The Associated Press he is willing to recommend permanent appointments to the commission if more information is available about the details of the job.

Ferency said he is now recruiting persons for the permanent commission, to serve after Jan. 1. He also expressed willingness to ask persons to participate in the informal, preliminary work.

Parents Accused Of Starving Baby

DETROIT (AP)—Mr. and Mrs. Rolland Chabot of Detroit have been ordered to stand trial on a charge of involuntary manslaughter in the starvation death of their 10-month-old daughter.

Chabot, 25, and his wife, Michele, 20, pleaded innocent earlier at their arraignment in the death of their daughter, Christina.

They were bound over for trial after examination Tuesday.

Outdoor Play Of Future Is Rated Hard To Forecast

CHATHAM — Speaking on "Leisure and Recreation" to the Conservation Department's annual Teacher Conservation Scholarship School here Wednesday night, Jean Worth, editor of the Escanaba Daily Press, said that popular public thought that outdoor recreation flows naturally from leisure is an oversimplification.

Actually, said Worth, the future of outdoor recreation in America is a fascinating jumble of speculation, shaky projection of present trends and wonder about what our increasingly censored people will want out-of-doors a generation hence.

Worth said that the present scramble of government agencies at all levels—local state and federal—to acquire outdoor recreational areas to meet the current crush in such facilities follows predictions of many recreation specialists that the camping craze was a transient fad.

It would be as doubtfully sound, he suggested, to multiply the current trends in outdoor recreation by increases in population, income and travel to determine the future need for parks and recreation areas as it was to doubt the validity of the outdoor camping craze as a genuine expression of public desire a few years ago.

Counter Influences

That people will seek the out-of-doors increasingly for recreation as they become more civilized, as a sharp contrast and variant to their everyday life, may seem natural, the speaker said, but recreation specialists point out some counter influences.

They cite that while garden clubs and pack-on-the-back hikers call for increasing dedication of government wilderness areas, the actual usage of state parks and forests shows a considerable timidity of city people toward woodland exposure. This was not so true, it is suggested, when America had a more rural society.

The overloading of public recreation areas and the doubtful possibility of acquiring so many of them that the quality of expansiveness for which they are sought can be maintained, raises a cloud on the suggestion that a huge park acquisition program is the sole solution. "For one thing," said Worth, "the tendency is to go away from the park users in acquiring the parks; to create them in cheaper outlands rather than incorporate them in urban renewal plans."

Crash Victim's Condition Fair

Duane Carlsen, 31, of Wayne, Mich., injured in a two-car mishap on U.S. 241 Tuesday afternoon in which two persons were killed, is reported in "fair" condition today by St. Francis Hospital.

Carlsen's wife, Lucia, 29, died in the hospital about three hours after the accident. Nine-year-old Kevin Gamble of Lake Shore Dr., Escanaba, a passenger in his father's car, died instantly in the crash.

The accident occurred at 4:15 p.m., near the road which leads off U.S. 241 to the Gladstone Golf Course.

According to police, Glen Gamble, an Escanaba school teacher, was driving north enroute to Rapid River when he swerved to the left to avoid striking a car driven by Harry Sooch of 518 Minneapolis Ave., Gladstone, who was waiting to make a left turn onto County Road 446.

The action by Gamble brought his car into the path of the Carlsen vehicle, which was heading south on the highway. The Carlsen car struck the right hand side of the Gamble vehicle. Both cars were demolished in the mishap.

Mrs. Carlsen was born July 15, in Hawaii, and was a school teacher.

In addition to her husband, she is survived by two sons, Brent and Kimberly; her parents, Mr. and Mrs. Pedro Paragoso, in Hawaii; two brothers, Phillimon and Alberto, both in the U.S. Army; and two sisters, Vivian and Bernice, also both in Hawaii.

The body will be shipped to Westminster Funeral Home in Westminster, Calif., where services will be conducted on Monday.

The accident is still under investigation by State Police.

Shoplifter Hides \$18,548 In Shirt

DETROIT (AP)—A Detroit man with \$18,548 in cash concealed in a sock sewn into one of his shirts was convicted Wednesday of shoplifting.

Joseph Tarnowski, 51, told Detroit Recorder's Judge John P. Scallen he was unjustly accused of stealing a shirt and a pair of house slippers from a Salvation Army store.

Tarnowski was remanded to the Wayne County Jail pending reports of the Probation Department and the Psychiatric Clinic Aug. 21.

Doctors Hopeful For Recovery Of Baby Patrick

(Continued From Page 1)

births, a White House spokesman said, and little Patrick will be christened formally later.

Whisked Off To Boston

Mrs. Kennedy had brief glimpses of her new son. The last time, he was wheeled into her room in a special incubator by the President himself. And then, the infant was whisked off for a speedy ambulance dash to Boston, a trip that took a little more than one hour.

Doctors had decided he could get better medical treatment at the Children's Medical Center, which is considered one of the best hospitals in the country specializing in children's diseases.

There, the baby was placed in an Isolette, a machine that bridges the gap between the mother's womb and the outside world, keeping temperature and humidity at the best balance to facilitate breathing.

The medical problem of the Kennedy offspring was described as "idiopathic respiratory distress syndrome." In layman's language, it means the baby's lungs had not developed sufficiently to function properly outside the mother's womb.

It is not considered an unusual condition of premature babies, and even John Jr., who was born only some three weeks ahead of schedule in a similar emergency, had suffered a bit from it.

Air Force Posts Guard

The new baby was born at 12:52 p.m. Eastern Daylight Time, after Mrs. Kennedy was rushed to the Air Force hospital by helicopter from her summer vacation home at Squaw Island, some 22 miles away. He weighed in at four pounds, 10 1/2 ounces, and was 17 inches in length.

A staff member who saw the infant said he was "beautifully formed."

Details were meager from inside the hospital, where military security was quickly clamped down. At night, the Air Force set up a guard house outside the door of the long, one-story, green shingled hospital ward where Mrs. Kennedy rested in an air-conditioned bedroom of an 8-room suite.

A corps of 10 Air Force doctors and nurses had assisted Mrs. Kennedy's obstetrician, Dr. John W. Walsh, 50, of Washington, in what was described as a normal Caesarian birth. It was the fourth Caesarian for the First Lady. She lost one baby in 1936 by Caesarian delivery. Her two previous children were born by such an operation, which removes the child before the mother goes into labor.

Mrs. Kennedy had planned to have her baby at Walter Reed Army Hospital in Washington.

The First Lady, 34, calmly took her two youngsters, Caroline 5 1/2, and John Jr. 2 1/2, off for a horseback ride outing Wednesday.

They were at a farm area in Osterville, not far from Hyannis Port, where the Kennedy family stables some horses for riding. Suddenly, Mrs. Kennedy started to have labor pains.

Dr. Walsh, who had been on vacation on Cape Cod, was summoned and Mrs. Kennedy was driven back to her Squaw Island home.

By the time she arrived there, Dr. Walsh, a grey haired gynecologist was waiting for her. He confirmed that the baby was coming and set the emergency procedure in motion.

PLANS CHANGED

OTIS AIR FORCE BASE, Mass. (AP)—President Kennedy suddenly changed plans today and arranged to return to Boston.

The White House announcement came after the President had consulted with doctors caring for his ailing, newborn son, Patrick Bouvier, a premature baby suffering from a breathing difficulty.

The baby is under treatment in Children's Medical Center in Boston.

The President earlier had visited his wife at the Air Force hospital here and it was announced he planned to remain in the Cape Cod area until Monday.

The President has been commuting between Boston and Otis—keeping a watch over his new baby, struggling with a breathing difficulty in Boston Children's Hospital Center, and his wife, recovering from Caesarian delivery at the Air Force hospital.

The baby was reported holding his own in a special incubator and Mrs. Kennedy making good progress in her recovery.

It was revealed today that Mrs. Kennedy received two pints of blood from an Air Force standby donor Wednesday when her son arrived 5 1/2 weeks ahead of schedule.

Janet and Kenneth Knauf, children of the Lawrence Knaufs of Bark River, have been "adopted" by Racky, pet racoon who follows them about like a dog. Racky was found huddled on the road near the Knauf cottage at Tom's Lake near Munising, was fed and cared for and became very fond of the Knaufs and especially of Kenneth and Janet. (Mrs. I. R. Nelson Photo)

Escanaba Told Of Dixie City's Creation Of Jobs

Escanaba's hunt for more industry and jobs has turned up a report from Burlington, North Carolina, on its success in the field.

Escanaba City Manager George D. Colclough of the Burlington-Alamance County Chamber of Commerce, reporting that Gerald Albrecht of the Area Redevelopment Division, U. S. Department of Commerce, Washington, D. C., reported recently in an Escanaba meeting on the success that Burlington had had in job creation through community cooperation.

Albrecht spoke in U. P. cities for ARA in a program developed by the Upper Peninsula Committee on Area Problems and Nathan Associates on means of using local resources to create small industries.

Colclough wrote Harvey of Burlington's efforts:

"Burlington was first organized as the community of Company Shop half way between Raleigh, N. C. and Danville, Va., on the old North Carolina Railroad. In the latter part of the 19th Century the Southern Railroad moved its shops to Spencer, N. C., and this left Burlington almost a ghost town."

"Preceding that we have developed some textile industry and our community went along as an old-fashioned textile community until 1923 when a group of Burlington citizens heard Mr. J. Spencer Love, who was in the textile business with his father in Gastonia had machines and a building worth about \$200,000 and was looking for a community that would invest another \$100,000 or \$200,000 to help him start a larger textile business. The citizens of Burlington raised this money and brought Mr. Love here, which was the start of Burlington Industries."

"This adventure with Burlington Industries created a desire among our people to do something for ourselves and since then practically all the industry in our county has been formed by a group of people pooling their resources in starting a new business. We now have over 200 industrial plants. We are working more than 20,000 people in industry with a payroll of nearly \$125 million. Our per capita income is consistently one of the highest in North Carolina."

"We have our ups and downs and all the other problems that communities our size may have."

Stromberg Tour Highlighted By Visit With Bertil

A visit to Sweden in a leisurely, studious manner is being made by former Escanaban Austin Stromberg and his fellow Chicagoan, Charles Johnson. Since May 7, when they arrived, they have traveled and seen much with their recent meeting with Prince Bertil a highlight of their adventure.

Chief purpose of the trip for Stromberg was a visit to his ancestral home. This is the first time he has visited Sweden and the first time any of his family have returned to the old country. Johnson is a native of Sweden, having been born in Helsingborg. He attended school in Halmstad.

Austin Stromberg retired about a year ago after selling his periodical, Powerwagon, an automotive publication. He has moved from Chicago to Evanston and was chief author of the Escanaba Night at the Swedish Engineers Club in Chicago last spring which saluted Escanaba's Centennial.

Stromberg plans shortly to write an article for the Escanaba Daily Press telling of his trip, the human interests and Sweden's industries, with which he was greatly impressed.

One of the industrial plants visited was the Volvo automobile works. He was impressed with the "Amazon" car manufactured by this company and purchased one and used it throughout his tour.

Stromberg has had a life-long interest in Sweden and is a member of two of the 12 Swedish Clubs in Chicago.

His travels in Sweden touched his mother's parental home in Totebo in Smoland, his father's parental home in Vadslund, and also Halland, Skona, Stockholm, Dalsland (where he spent midsummer night) and Bohuslan. A side trip was made to Copenhagen.

The highlight of the trip, was the meeting of the men with Prince Bertil, a brother of the Swedish king, Johnson and Stromberg brought with them a recording of a speech made by Prince Bertil during a visit to Chicago on April 8 of this year. (Prince Bertil visited Escanaba on "Svenskarnas Dag" in 1948.)

Johnson, who manufactures sails for boats and circus tents, will remain in Sweden until fall, but Stromberg is enroute home.

Offices Ready At Bay College

The administrative staff of Bay de Noc Community College began moving into new ground floor offices in the college's West Hall today. Main entrance to the college is now through the 12th St. doors.

The new move will complete abandonment of the building's upper two stories. Only the ground floor of the building will be used by the college in its first year of operation.

Decorating of the president's office is nearly completed. The spacious and friendly air of the many-windowed office is extended by the ocean blue walls and blue-green tweed carpet. Mahogany finished furniture will complete the treatment.

Decorators have chosen ivory for the walls of the reception office. Far from colorless, the ivory combines well with the green office furniture and tangerine settees to give visitors an impression of cheerful cordiality.

Work on the rest of West Hall is going according to schedule. Kitchen facilities will be installed soon. Lights, ceilings, and shelving will complete the library. Faculty offices and student union will be ready for use in early September.

Turncoat Skinner Takes New Name

HONG KONG (AP)—American turncoat Lowell D. Skinner of Akron, Ohio, left for home under the assumed name of "Braun" today, an airline source reported.

The former U.S. Army corporal, who refused repatriation after the Korean War and spent nine years in Red China, was to change planes in Tokyo.

Canadian Weapons Get U.S. Warheads

OTTAWA (AP) — Prime Minister Lester B. Pearson says American and Canadian negotiators have "pretty well agreed" on an agreement to arm Canadian weapons with U.S. nuclear warheads.

Pearson told newsmen Wednesday he may discuss the draft with his cabinet next week.

Typhoon Churning Toward Japan, 115-Mile Gale

TOKYO (AP)—High tides and rain storms began battering the southern Japanese coast today as Typhoon Bess churned toward the islands of Kyushu and Shikoku.

The U.S. joint typhoon warning center on Guam reported Bess, with winds of 115 miles per hour, was moving northwest at 6 m.p.h. Her center is expected to be 52 miles southeast of Kagoshima, southern tip of Japan Friday afternoon.

FUKUYAMA, Japan (AP) — Winds whipped up by typhoon Bess turned a three-story Japanese hotel into a blazing inferno today.

Police said four persons perished, one is missing and eight were injured.

There were no foreigners among the 61 guests at the hotel, on the picturesque Inland Sea 50 miles east of Hiroshima.

Women's Activities

Highland Women Have League Golf On Wednesday

Women of the Highland Golf Club held their regular league golf Wednesday at the club. Mrs. John Kallman and her committee were in charge of the dinner.

Low scores for the day were: Vicky Beck, 46; Carolyn Nelson, 49; and Caroline Olson, 50.

Prizes in golf were awarded to: Carolyn Nelson, Barbara Douglas, Edna Theriault, Ruth Oliver,

Marian Barry, Sally Morin, and Lois Bittner.

Guest prizes from Jamaica were presented to Ethel Manske, Janet Jentes and Ida Malmstead.

The Women's Golf Tournament will begin Monday, Aug. 12 with tee-off time at 9:30 a.m. Deadline for entering is Saturday evening and entries can be made by calling Mrs. James Douglas.

Always scrub zucchini well when it is to be cooked unpeeled; cold water and a vegetable brush will remove any grit.

Braun-Vandermissen Vows Repeated In Milwaukee

St. Barbara's Catholic Church in Milwaukee was the setting Saturday for the marriage of Miss Elizabeth Marie Braun and James H. Vandermissen. Rev. James Braun, a cousin of the bride, performed the double ring ceremony before an altar decorated with lavender carnations and yellow tea roses.

Before his marriage the bridegroom resided at 3425 W. Kilbourne in Milwaukee and is the son of Mr. and Mrs. Henry Vandermissen of Wilson.

Organza Gown

Given in marriage by her father, the bride wore a gown of white silk organza. The fitted bodice featured a square yoke of Chantilly lace, and long lace sleeves. The full floor-length skirt was three tiers of lace that fell to a train in back. Her waist length silk illusion veil was held to a sequin and pearl headpiece. She carried yellow roses with two white orchids in the center. She is the daughter of Mr. and Mrs. John Braun, 3136 W. National Ave., Milwaukee.

Beverly Ann Braun was maid of honor for her sister and wore a pastel orchid full floor length gown with a sleeveless bodice and scoop neckline. She carried a bouquet of lavender carnations. Bridesmaids, Linda Vandermissen, the bridegroom's sister and Kathleen Davis of Milwaukee and junior bridesmaids Susan Braun, another sister of the bride, and the bridegroom's sister Kristine Vandermissen, wore dresses similar to the maid of honor in a deeper shade of orchid. Each attendant wore a silver cross, a gift of the bride.

Dennis Urbanc, Bark River, was best man with Robert Braun, the bride's brother and Jerome Vandermissen, a brother of the bridegroom as groomsmen. Wayne Dirksman and George Simonsen seated the guests.

Brenda Eesley, the bridegroom's niece from Milwaukee, for her role as flower girl, wore a dress like that of the bride. The bride's cousin, John Hasler was ring bearer.

Mrs. Braun wore a flowered lace sheath with pink accessories and a pink orchid corsage. The bridegroom's mother was attired in a mint green lace sheath with white accessories and a yellow orchid.

Following the ceremony a breakfast was served at the Cha-

let on the Lake and later the newlyweds were fêted at a reception held at the Knights of Pythias Hall.

Canadian Honeymoon

After their honeymoon through Upper Michigan and Canada, Mr. Vandermissen and his bride will reside at 3956 N. 88th St., in Milwaukee.

The bride is a graduate of West Division High School and Marquette University, where she is affiliated with Beta Sigma Phi Sorority. The bridegroom graduated from Holy Name High School. Both are employed at the Falk Corp. in Milwaukee.

Out-of-town guests from this area who attended were Mr. and Mrs. Henry Vandermissen and family, Wilson, the Clarence Poupoures, Clifford Poupoures, Ronald Sharkey, Earl Wentlands, David Vandermissen and Miss Esther Poupoure, all of Spalding; Mrs. Wayne Miller and Howard Luft, Powers; Mr. and Mrs. Michael Urbanc and the Dennis Urbancs of Bark River; Mr. and Mrs. Leonard Racine and Mr. and Mrs. Stephen Janizeski of Escanaba.

Girl Scout Plant Contest Winners Are Announced

The intermediate Girl Scout Troops of Delta County concluded their petunia growing contest this week. The contest was sponsored by the Wickert Floral Co. and entries were numbered for impartial judging. The judges were Miss Ingrid Tervonen and Joseph Heirman.

The winners, who will receive a \$10 bank deposit, are: Debra LaCroix, North Delta, 1622 Michigan Ave., Gladstone; Ann Schmitt Central Delta, 1214 Stephenson Ave.; and Patsy Douglas, South Delta, 709 5th Ave. S.

The contest also served to fulfill a requirement in Girl Scouting.

Personals

Mr. and Mrs. Robert Lickman of Wadsworth, Ohio and Miss Judy Charland of Milwaukee arrived last night, called by the serious illness of their father, William Charland, who is a surgical patient at St. Francis Hospital.

S/Sgt Emmanuel and Mrs. Dart Jr. and their children arrived here Wednesday from Selfridge AFB to spend 15 days visiting with his parents, Mr. and Mrs. Emmanuel Dart Sr., 309 S. 16th St., and Mrs. Dart's parents, Mr. and Mrs. William McMartin of 224 Stephenson Ave. From Escanaba they will travel to Reno, Nev. where Sgt. Dart has been assigned to Stef AFB.

Miss Ruth Peters of Ann Arbor, is visiting her sister, Probate Judge Marie Peters, 900 S. 17th St.

Social-Club

Bake Sale

A bake sale will be held Friday, beginning at 10 a.m. at Goodman's Drug Store. It will be sponsored by the Girl's Softball Assn.

Bark River

Farm Bureau

The Toad Creek will hold their regular meeting Monday, Aug. 12, at the Leonard Veaser home at 8:15 p. m. The discussion topic will be "The Nations Food Supply." Attending the Toad Creek Farm Bureau Picnic at Lake Antoine near Iron Mountain recently were Messrs. and Mesdames Edward Gurosh, Wayne Hooker, Clem Ouradnik, Ray Kuharski, Leonard Veaser, Ronald Kleiman, John Kleiman and Adolph Getzloff. Adults joined with the children in the games following the picnic dinner.

Mr. and Mrs. Dale Britten and children, Elaine, Mary Jane and Mark, of Lansing, visited Mrs. Britten's brother, Robert Olson, in Milwaukee before coming here for a vacation visit with her mother, Mrs. Minnie Dahlin and other relatives. Mrs. Britten is the former Lois Olson.

Mr. and Mrs. Charles Behrend and children of Iron River spent the weekend with Mrs. Behrend's parents, Mr. and Mrs. Melvin Iversen.

Mr. and Mrs. John Walker and sons, Kim and Jim, arrived Thursday from Detroit for a ten day vacation at the Thomas Morin home. Mrs. Walker was formerly Carol Morin. John Walker is the son of the Leon Walkers formerly of Escanaba and now of Detroit.

Lloyd Bruce, principal of Bark River-Harris High School, who has been doing graduate work during the summer term and his son, Jan, who was attending the Honor Science Institute at Michigan State University in Lansing, returned this week.

Karen and Donald VanEnkevort Jr. left Monday for a week's visit with their grandmother, Mrs. Thomas Voros, in Milwaukee.

Legion Auxiliary Names Committees

Cloverland Post 32 American Legion Auxiliary met this week to elect and install officers. At the meeting, Mrs. William Butler, local delegate to the American Legion Department Auxiliary State Convention in Detroit, gave a report on convention proceedings.

A donation was presented to the Child Guidance Clinic from the Auxiliary.

Elected to serve on the executive committee were Mrs. Evelyn Smeltzer, Mrs. Lillian Greis and Mrs. Shirley Dehlin. The auditing committee is composed of Mrs. Alice Allen, chairman, Mrs. Alice Lowell and Mrs. Smeltzer.

A social hour followed the meeting with Mrs. Ruth Allingham as chairman. Her committee was composed of Mesdames Leo Filion, Leo Niquette, Alice Lowell, Helga Peterson, Ruby Shiner and Irene Morton.

Births

LAMPINEN — Mr. and Mrs. Russell O. Lampinen, 626 Glenview Ave., Highland Park, Ill., are the parents of a son, Michael Scott. The infant was born Monday, Aug. 5 at Lake Forest Hospital, Lake Forest, Ill. and is the second child in the family. The maternal grandparents are Mr. and Mrs. Emil Lund of Rock.

HOLSTER—Robert Stanley Jr., a 7 pound, 14 ounce baby boy, is

the second child of Mr. and Mrs. Robert S. Holster Sr., 409 S. 15th St. The infant was born Wednesday, Aug. 7 at 10:39 p.m. in St. Francis Hospital. Before her marriage Mrs. Holster was Sandra Gustafson.

TRUDELL — A son, Robert, was born Wednesday, Aug. 7 to Mr. and Mrs. Robert E. Trudell, of Murfreesboro, Tenn. Mrs. Trudell is the former Jackie Peters, daughter of Mr. and Mrs. Walter C. Peters of Rapid River.

Manistique Mill Sale Rumor Gets Denial From Field

Field Enterprises, Inc., officials today answered rumors about disposition of the Manistique Pulp & Paper Co., a Field property, when queried by the Escanaba Daily Press.

Russell Stewart, chairman of the board of directors of the Manistique Pulp & Paper Co., said "Such speculation may well have arisen from the fact that executives of Field Enterprises have been engaged recently in discussions with several United States and Canadian newsprint manufacturers relating to long term paper contracts for its newspapers—the Chicago Sun-Times and the Chicago Daily News.

"The two newspapers this year will use about 140,000 tons of newsprint, of which about 10,000 tons will come from Manistique. The rest of the paper manufactured at Manistique is sold to other long time customers of the mill.

"There are several proposals under consideration and at least two of them involve a major expansion of the present mill facilities and its production capacity in connection with the Field newspapers' paper requirements.

"I can assure the employees of Manistique Pulp & Paper Co. and the citizens of Manistique," said Stewart "that at no time has the closing of the mill been contemplated, nor has its sale been discussed on any basis that would result in discontinuing its operations.

"As everyone in Manistique knows, several teams of research and technical experts have visited the mill during the past three months. The studies being undertaken are so complex it will probably be several more months before any conclusions can be reached," said Stewart.

He was accompanied to Manis-

Peninsula Peak To Get A Name

L'ANSE (AP)—Michigan's highest mountain may have found a name at last.

A campaign to name the 1,980 foot peak "Mt. Curwood" for author James Oliver Curwood has been launched in this Upper Peninsula community following a year-long contest among Baraga County residents.

The peak was considered just an obscure rise in the woods until geologists measured it last year. They found it was five-feet higher than Mt. Arvon, which had formerly been listed as Michigan's highest peak. Both are in the Huron Mountains.

Curwood, an Owosso native who died in 1927, spent several summers in the Huron range collecting material for books. It is not known if he ever saw the proposed Mt. Curwood, a densely wooded peak in the Michigamme State Forest.

Mt. Curwood is a desolate, tree-shrouded area that can only be reached on foot. The closest road is little more than a dirt trail, which halts six miles from the top.

Area residents say that hikers are in danger of becoming lost if they attempt to climb the peak. John Westberg and Eugene Olson, who suggested dubbing the peak Mt. Curwood and won \$10 apiece for their inspirations, hope that a proper name will put the peak "on the map."

The first step in getting the mountain named for one of Michigan's most famous writers is approval of Baraga County board of supervisors. When the expected approval is made, the final word is up to the National Board of Geographic Names in Washington.

VFW Picnic Slated Sunday

The annual VFW picnic will be held Sunday, Aug. 11 at the Pines picnic area. The event is for all Post and Auxiliary members and guests.

Members are asked to bring their own picnic lunches to eat the noon meal on the grounds. Contests and events begin at 1 p.m. Cash prizes will be given both in the children's class and the adult group. Events will include various races, eating contests and several novel events. Free pop and ice cream will be available for the children.

Members are asked to use the main entrance, so they will not fail to receive tickets. Arrangements are under chairmanship of Eleanor DeSautel and Lionel Mercier.

Dance Numbers Included In Band Program

Miss Judy Sheppard, local dance instructor, will present several numbers at the concert of the Manistique Municipal Band, at the community bandshell in Central Park, at 8 p.m., today.

Death Claims Local Resident

Mrs. Ben (Sarah) Neganquaam, 63, of Deer St., died at 10:55 a. m., Wednesday in Schoolcraft Memorial Hospital. She had been in failing health two years.

Born Jan. 28, 1898 in Alpena, she moved to Manistique from Thompson 20 years ago. The former Sarah Margeson, she was married here in 1946. She was a member of the Free Methodist Church.

Surviving are her husband, two sons, Chester Cripps of Manistique and William Cripps of Owosso, three daughters, Mrs. William (Verniva) Anthony of Manistique, Mrs. Virginia McMillan of Manistique and Mrs. Forest (Violet) Fox of Twin Lakes, Mich., two brothers, John Margeson of Manistique and William Margeson of Munising; a sister, Mrs. Amy Oswald of Hillman, 29 grandchildren and five great-grandchildren.

Funeral services will be held at 2 p. m., Friday from the Free Methodist Church. Burial will be in Thompson cemetery. Friends may call at Messier-Broulliere Funeral Home today. The body will be in state at the church from 12:30 p. m., Friday until the funeral hour.

Social

4-H Club Meets
The 4-H Spade and Hoe Club met Wednesday at the home of Mrs. G. L. Bouschor. Jane Brunet served lunch. The group had one guest, Luana Peterson. Monday members will bring U.P. Fair exhibits to Mrs. Bouschor's home for transportation to Escanaba. The Aug. 20 meeting will be at the home of Mrs. Bouschor at 4 p.m. A 6:30 p.m., pot luck supper is planned and Mrs. Bouschor will show garden slides.

Circle Has Dinner
Members of St. Theresa Circle gathered at the home of Mrs. Lloyd Neville, Tuesday for a 6:30 p.m., pot luck dinner served on the lawn. Later games and a social evening were enjoyed. Awards were received by Mrs. Mary Ann Borko, and Miss Frances Berandt. In July members enjoyed a pot luck dinner at the Sportsmen's Club. The September meeting will be at the home of Mrs. Steven Borko with Mrs. Eunice New as co-hostess.

Former Pastor Will Speak Sunday At Baptist Church

The Rev. William Schobert, former pastor of First Baptist Church, who is on vacation from his pastorate in Bankers, Mich., will conduct 11 a. m., worship services Sunday in the church here. He and Mrs. Schobert plan to spend next week visiting here. The Rev. E. H. Eckstein, pastor here, will conduct services Sunday at the church in Bankers.

Recreation Wins Ball Tournament

The Manistique Recreation team won 8-1 over Mueller Tuesday on the Hiawatha diamond to win the B. M. C. League tournament.

hitting by the Recreation and some opposition provided the winning margin. Both of the champion teams were awarded trophies by Commissioner John Schmitt.

Cooks leads the league and is followed by Recreation, Mueller, Manistique, Hiawatha and Garden, in that order.

Personals

Dore and Pat Theut have returned to Sault Ste. Marie with their parents, Mr. and Mrs. James Theut after spending two weeks with their grandparents, Mr. and Mrs. Ed Toyra, Intake Park Road. Leo Farley and Mr. and Mrs. Louis Farley of Garden, Mrs. Laverle Juhl of Escanaba, Mr. and Mrs. Amos Kleindienst of Gladstone, Mr. and Mrs. Bill Holmes and sons, Pat and Mike and Miss Nancy Gentz of Marquette, Mr. and Mrs. O. D. Richmond of Flint were weekend guests of Mr. and Mrs. William Gentz.

Prof. and Mrs. Willis Dunbar of Western Michigan University visited here Wednesday enroute to Sault Ste. Marie for the meeting of the Michigan Historical Commission.

New Names In The News

Mr. and Mrs. James Barr, 183 River St. are the parents of a son born Aug. 6 in Schoolcraft Memorial Hospital. The baby weighed 5 pounds 7 3/4 ounces. Mrs. Barr is the former Shirley Blanchard. A daughter weighing 7 pounds 1 1/2 ounces was born Aug. 6 in Schoolcraft Memorial Hospital to Mr. and Mrs. Kenneth Caron of Thompson. Mrs. Caron is the former Joan Grant.

PERSONAL CRITIC
The voice of conscience is a built-in watch-dog which barks at all our shortcomings.

Mr. and Mrs. Mennen Cousineau, 713 Deer St., are announcing the engagement of their daughter, Christine Jane, to Michael Kent Neadow, son of Mr. and Mrs. John Neadow of Cooks. The wedding is planned Aug. 31. (Harbin Photo)

VFW Will Bring Safety Patrols To U.P. Fair

The Veterans off Foreign Wars again this year will provide transportation for Safety Patrol members eligible to attend the U.P. State Fair in Escanaba.

Members are to meet at the VFW hall at 9:30 a.m., Tuesday, Aug. 13.

Housing Started For Refugees Of Skopje Earthquake

BELGRADE, Yugoslavia (AP) —Workers have begun constructing housing settlements for the refugees of Skopje, devastated by an earthquake that took more than 1,000 lives July 26.

The settlements are expected to house 12,000 persons before the end of the year. Eventually the city of 270,000 will be rebuilt on a different site.

A light earthquake was felt near Sarajevo, 200 miles northwest of Skopje, this morning. There was no material damage.

Athletes May Get Tax Break

WASHINGTON (AP) — In the news from Washington:

TAX BILL. The House Ways and Means Committee has recommended giving a tax break to persons with roller-coaster incomes, such as authors, entertainers, professional athletes and lawyers.

Polishing and fitting together the pieces of the tax cut and revision legislation, the committee Tuesday spelled out a provision to give special consideration to a taxpayer whose income shoots up in one year more than a third above his average for the previous four years.

Now, such an increase would put the taxpayer in a substantially higher bracket.

U.S.-HUNGARY. U.S. and Hungarian officials are conferring in Budapest on problems blocking normal diplomatic relations between the United States and that Communist country.

The two nations have exchanged only token diplomatic representation since Soviet tanks crushed Hungary's 1956 revolt.

Richard I. Phillips, State Department press officer, acknowledged Tuesday the talks are under way but said "it would not be helpful" to discuss them publicly.

PUBLIC DEFENDER. The Senate has approved a bill to provide paid counsel for defendants in federal criminal cases who are unable to pay for their own defense.

The bill, urged by President Kennedy and Atty. Gen. Robert F. Kennedy, now goes to the House.

The Senate has passed public defender bills in previous Congresses only to have them die in the House.

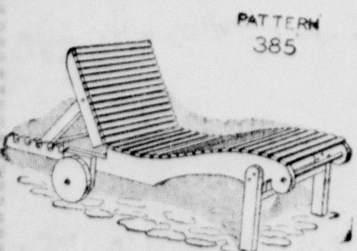

Schaffer

Mrs. Robert Pickering and children, of Newberry are spending two weeks with her mother, Mrs. Martha Meloe.

Mrs. Dun Mayer and children of New Buffalo are spending the week with her mother, Mrs. Ethel LaVigne. Her husband, who was here for the weekend returned home Sunday.

Mr. and Mrs. Edward Potvin returned to Pittsburg Wednesday after a week's vacation with his brother, the Joseph Potvin family, and other relatives.

Sister Germaine, a mother superior at Joliet and Sister Columbia of Detroit, Mrs. George Parker of Neenah and their mother, Mrs. Georgianna Racicot, also of Neenah visited Wednesday at the Louis Racicot home. The nuns are sisters of Mr. Racicot. Mrs. Leona O'Donnell of Taylor, Mich., also a sister of Mr. Racicot will return to Neenah with them after spending a week here. They are all former residents of Schaffer.

STOCK SIZES OF LUMBER are used to make this chair. The simple curves are easy to cut with hand or power tools. The wheels may be made of wood or metal wheels may be used. The back adjusts to five positions. Pattern 385, which gives actual-size cutting guides and directions, is 35c. This pattern also is in the Porch and Terrace Furniture Packet No. 28 with three other patterns—all for \$1.

Mrs. Howard Kuehn returned to her home after visiting her father Van Pipal of Milwaukee.

Mr. and Mrs. Warren Peterson of Detroit are visiting Mr. and Mrs. Charles Bowen and family. Peterson is in charge of the flower conservatory at Bell Isle.

Mr. and Mrs. Harlan Alman of Bay City, Mr. and Mrs. John Holmblad and children of Muskegon have returned to their home after visiting Mr. and Mrs. Charles Bowen.

A reunion picnic was enjoyed

Sunday at the Dutch Mill Park by Mr. and Mrs. Ivan Wood and daughters Mary Margaret and Mary Ann of Marquette.

Mr. and Mrs. Ernest LaViolette and family from Toledo, Ohio, have returned to their home after visiting Mr. and Mrs. Lawrence Hayes.

Mr. and Mrs. Ernest Kish and daughter, Judith of Arlington, Calif. have returned to their home after a visit with the Charles Parretts.

Farm Price Lists Remain Unchanged

LANSING (AP)—Average farm prices have remained unchanged for the past three months, reports the Federal-State Crop Reporting Service.

The index of prices received by Michigan farmers as of mid-July was 220 per cent of the 1910-14 base for the third straight month.

Price increases for potatoes, hogs, beef and eggs were offset by price decreases in wheat, oats and chickens.

Daily newspaper classified ads are a major advertising medium. Eight hundred million dollars were spent on classified ads in 1962, more than for all television spot announcements or all radio advertising. A Daily Press want ad can do a big job for you.

'Hi-Fi' Opened For Teenagers

Gladstone teenagers are finding the "Hi-Fi," the latest addition to Gladstone's business section, a most enjoyable spot to visit with their friends and dance, play pool or pinball.

Bill Roberts, son of Mr. and Mrs. William H. Roberts, 715 Delta Ave., managing the Hi-Fi for his father and says that business has been very good and the teenagers very well behaved.

Bill, who is a graduate of Gladstone High School and recently returned to Gladstone after four years in the Marine Corps, keeps a close watch on the teenagers.

The Hi-Fi will be open from 10 a. m. until midnight and young patrons may enjoy the coke and ice cream bar as well as coffee and short orders. A large space is reserved for dancing with tables and chairs skirting the floor.

Billie Sol Estes Family Moving

LOS ANGELES (AP)—Singer Harry Belafonte has been released from his Aug. 28 appearance at the Greek Theater to take part in the mass civil rights demonstration that day in Washington.

Belafonte was reported to be organizing a group of entertainers to join the march in support of civil rights legislation.

MOSCOW (AP)—Soviet Culture Minister Ekaterina Furtseva announced the establishment of new censorship boards to scrutinize theatrical works. Tass news agency said the boards were being set up "to improve the guidance of the work of theaters and to help them to shape their repertory."

PECOS, Tex. (AP)—Pam Estes, 15, oldest daughter of promoter Billie Sol Estes, reportedly has been given a "going away" party because the Estes family is moving to Abilene, Tex., where they are said to have bought a home.

SEATTLE (AP)—Astronaut Gordon Cooper has arrived for his first vacation in four years. The Air Force major said he plans to spend "a quiet few days" at the home of his father-in-law, E.J. Olson of nearby Kent.

HOUSTON, Tex. (AP)—Paul Haney, 35, new public affairs officer of the Manned Spacecraft Center, says his role will change with the changing space missions. For one thing, he says, more than one person will broadcast reports on the progress of space flights.

On Sept. 1, Haney replaces Lt. Col. John A. (Shorty) Powers, who will become a special assistant to the director of the space-craft center.

Friday Keeps On Inventing Things For Fruit Grower

By A. F. MAHAN
HARTFORD (AP)—Robinson Crusoe's Friday never was a busier man than Michigan's David G. Friday.

And Crusoe's Friday never found life more exciting than the robust 51-year-old who lives beside the rural road that connects the towns of Hartford and Keeler in southwestern Michigan.

The life stories of both read like fiction. One is. The other isn't.

Back in 1940 when he was 28, David G. Friday built his first tractor. That was 500 tractors ago, and now the inventor-manufacturer-farmer has branched into a wide range of cultivating and harvesting equipment that may largely mechanize the fruit growing industry.

Friday rode that first tractor to success in more ways than one. He built it, mostly from a 10-year-old model A Ford truck, because he couldn't afford a factory-built tractor.

Wins First Prize

It cost him \$135, but with it he won first prize in a 1940 Farm Bureau plowing contest, competing against rigs that cost more than \$1,000. Some of the farmers who laughed before they saw it per-

form, came around later and inquired if he could build them a tractor like his.

And that's the way this sign got alongside the driveway of a modest rural homestead: "Home of the Friday Tractor."

It also accounts for the 80-by-100-foot concrete block shop building out back, a few steps from the barn.

Why couldn't a man living on a 200-acre farm afford a factory-made tractor in 1940?

"Well, for one thing, Friday recalls, 'I'd just got out of college (in 1934) and into the depression. Why, I can remember when we had a \$20 bill for a rainy day tucked back of an old football picture, and felt right cozy because of it.'"

Tree Shaker \$5,000

It would take quite a parcel of \$20 bills to buy one of Friday's major orchard appliances today, a motorized cherry-catching frame and tree-shaker retails at \$5,000-plus. A modern day Friday tractor runs around \$3,800, not \$135.

Friday expanded from the labor-saving tractor into mechanized cultivating and harvesting equipment "to help take some of the

bachache out of the job of growing fruit."

He lives in the heart of the Michigan fruit belt, which annually reckons the worth of its harvest at \$55 million.

Friday never took engineering. Reared on a fruit farm in adjoining Berrien County and bearing the name of an uncle who was a one-time president of Michigan State University, Friday won a degree in horticulture there.

A major reason Friday decided to take some of the backache out of fruit growing was that he cultivates 100-plus acres of fruit: 60 in apples, 40 in peaches, 25 in cherries, 8 in strawberries, and is introducing nectarine growing to Michigan with 724 trees.

Bring Your Problems

So today, if you're a fruit grower or anybody else and want one, you can buy.

Friday, catching frames (for cherries shaken off by a Friday tree shaker) for \$4,022, plus \$1,668 for the shaker and another \$250 for a hand-carried second-half frame that gives you a 26-foot circular catcher.

A Friday automatic rotary hoe, which automatically goes around any vine, bush or tree you're cultivating and hoes a four-foot swath in a round trip down a row. The price \$1,012 for one that'll fit a tractor's power takeoff to \$1,276 for one with its own power.

A Friday "wish basket," which resembles those gadgets you've seen 'em changing street lights with but which, in this case, is used by someone pruning fruit trees with Friday hydraulic pruning shears.

Rank Third In State

Detroit Edges Cubs In Semi-Finals 5-2

The Escanaba Cubs, who can be ranked third best of the Michigan American Legion baseball teams on the basis of how long they stayed in the state tournament, split a pair of games yesterday.

In the first game against Flint, the Cubs came through with an 11-6 victory on the pitching of Mike Gafner and the hitting of Gafner with three hits, and Jim Bruce, Jerry Sundquist and Joe Hebert each with two hits. Gafner came in during the second inning when Wally Schultz, the Cub workhorse on the mound, came up with a sore arm.

Escanaba got 11 runs on 12 hits. Joe Hebert led off the first inning with a triple, and then Frank Trotter laid down a bunt to sacrifice Hebert Home.

In the fourth, Bruce singled, Sundquist hit a two-bagger, Gafner doubled, driving in two runs, and then Hebert got his second hit in two trips, sending Gafner across the plate.

The seventh inning produced three more runs when Bruce walked, and then was picked off on a fielder's choice hit by Sundquist. Gafner singled and Hebert

walked to load the sacks. Catcher Bob Johnson hit a long sacrifice fly to score Sundquist after the catch, and Frank Trotter singled to score Gafner and Hebert.

The Cubs did well, but not well enough to win, in yesterday afternoon's game with Detroit Edison. The Detroit team had trounced Ludington 22-1 the previous day and then lost to Adrian 7-5 yesterday morning. Escanaba played them at 3:30 and the final score was Detroit Edison 5, Escanaba 2.

The game was closer than the score indicates. The Cubs had the bases loaded in the sixth inning with Ron Gauthier at the plate. Gauthier had unloaded two home-runs in previous tournament play this season, and the team was happy to have the steaming bat of Gauthier at the plate. Ron belted one that was tabbed by team manager Bob Olsen as the longest ball hit in Escanaba Legion action in some time. The right fielder, who was playing deeper than usual because he was gabbing with a friend in deep right field, looked up and reared out and caught the ball. Manager

Olsen said the ball would have easily cleared the fence in any of the ballparks where a fence was up. But there wasn't a fence in Owosso and Gauthier had made a long (390 foot) out, and broken up the rally.

Escanaba got its two runs in the eighth when Joe Hebert singled, Frank Trotter singled, Gauthier walked, Mike Kositzky singled to drive in Hebert, and Jim Bruce squeezed in Trotter.

M. Kositzky and Trotter each had two hits to lead the attack at the plate. Jerry Sundquist went all the way on the hill for the Cubs, allowing five runs on eight hits.

One of the highlights of the tournament was the outstanding fielding job turned in by little Joe Hebert, the Cubs second sacker. Time and again Hebert grabbed balls that looked like sure hits and turned them into easy outs.

Detroit Edison and Adrian square off for the state championship today. If Adrian wins the first game, it is all over. If Detroit wins, then a second game will have to be played from the loser's bracket to determine the champion.

The team left for home this morning by car, and should arrive some time late this evening. This is the ninth consecutive year that the Escanaba American Legion has sent a team from here as the U.P. champion to compete in the state tournament.

Al Kaline Blasts Homer Off Radatz

DETROIT (AP)—He's big and frightening, this Dick Radatz, glowering down off the mound at batters. He stands 6-foot-5 and he turns hitters' knees to jelly and their bats to rubber.

The Boston Red Sox save him for the toughest situations—when a big out is a must.

But baseball's foremost relief pitcher—nicknamed the Monster—is not invincible. Until Wednesday the Tigers believed he was.

Al Kaline greeted Radatz with a three-run homer that wiped out a two-run deficit and produced a 5-4 victory. It was the first time the Tigers ever defeated Radatz, a suburban Berkeley product their scouts missed when he attended Michigan State.

"I know," said Kaline as writers clustered around him after the tide-turning 21st homer in the seventh inning. "You're surprised. So am I."

"That was only the second hit I ever got off that Monster. I've been up about 20 times against him and all I ever had was a single in Boston last year."

"He's the toughest pitcher I have to face—the best relief pitcher I've ever seen."

The Tigers took over the major league record for consecutive errorless games with perfect fielding for the 12th straight game. The 1953 Cincinnati Reds set the old mark of 11, matched by the Tigers Tuesday night.

The Red Sox rushed Radatz in to face Kaline after Dick McAuliffe's single put two runners on with two out in the seventh against Jack Lambe. Kaline whacked Radatz' third pitch into the lower left field seats.

"It was a fastball," said Kaline, who also had a single and a double and drove in four of the Tigers' five runs. "That's all he ever gives me is fastballs. And they're tough to hit."

This was only the third defeat against 12 victories for Radatz. And oddly, all three losses have been inflicted by the two lowest teams in the American League.

Washington hung the other two on Radatz. The second was only last Friday after Radatz had gone nearly three months without being beaten.

The Tigers finish their seven-game home stand today against

Detroit Wins State Golf Meet

DETROIT (AP) — John A. O'Brien of Detroit won the Michigan Seniors Golf Championship Wednesday as he shot a strong 77 over the tougher north course of the Detroit Golf Club and finished with a 150 in the two-day event.

It was the first Michigan Seniors title for the 65-year-old O'Brien, who was runnerup in 1960. He finished one stroke ahead of C. J. Farley of Grand Rapids and Neil Boyle and Dr. Donald Jaffar of Detroit.

Defending champion George Haggarty of Detroit, who opened with a 78 on the north course, took a 75 on the four-shot-easier south course and finished with a 153.

H. J. Peterson of Detroit took the Class A title — for men 75 and over — with a 43-43-85.

Class A golfers play only nine holes each day.

Two hundred and fifteen kids converged on the eating area at Ludington Park yesterday noon during the Annual Recreation League Picnic. The kids are treated to the picnic after participating through the summer in the sports program. Here they are heading for the Barbeques and Beans ... with a little ice cream and pop for dessert. Loses On Three-Hitter

Sanford Drops 1-0 Game; LA Dodgers Six Games Up

By MURRAY ROSE
Associated Press Sports Writer

About this time a year ago Jack Sanford had won seven straight games in a streak that eventually stretched to 16 and an outstanding 24-7 record with the San Francisco Giants.

Somehow, all of the little pieces that fitted so neatly together last year are all out of whack this year. For instance take Wednesday night in Houston. The 34-year-old ace hurled a masterful three-hitter against the Colts but lost 1-0.

Sanford's mates got nine hits but couldn't dent the plate against Dick Farrell and relief star Hal Woodeshick. It looked like they might in the ninth when Orlando Cepeda and Matty Alou singled off Farrell to put men on first and third with one out. But Woody stepped in then for his 40th appearance of the year and got pinch hitter Harvey Kuenn to hit into a double play.

So now Sanford has a 10-12 record against a mark of 14-6 at the same time in 1962, which is a big difference and as good a reason as any why the Los Angeles Dodgers have a six-game lead over the Giants as well as the St. Louis Cardinals.

The Dodgers upped their advantage by a full game over all of the first division clubs by nipping the Cubs in Chicago 3-1 on Tommy Davis' homer in the 11th inning. The New York Mets clubbed the Cards 7-3, the Philadelphia Phillies 4-1, and Pittsburgh topped Milwaukee 5-4.

In the American League the front-running New York Yankees clubbed Washington 9-1, Chicago thumped Kansas City 7-3, Cleveland downed Baltimore 4-1, Detroit edged Boston 5-4, and Minnesota belted Los Angeles 9-4.

Davis' leadoff homer in the 11th inning against reliever Lindy McDaniel proved the winner at Chicago although the Dodgers got another to make sure. This gave the victory to Ron Perranoski who took over for Sandy Koufax after the fireballer had yielded a tying run in the 10th inning.

Sandy got himself another mention in the record book, however, by fanning 11. This gave him 210 whiffs for the season and enabled him to tie the Christy Mathewson's National League record of three consecutive 200-strikeout seasons. Jim Hickman became the first

Eleven Contests Of Exhibition Pro Football Set

By The Associated Press

For those fans who think sports is spelled f-o-o-b-a-l-l, there are happy tidings starting tonight and for the entire week.

Within a seven-day span, opening with tonight's Dallas Cowboys-Los Angeles Rams game at Los Angeles, the teams in the National and American Football Leagues will engage in 11 exhibitions for the purpose of conditioning, finding out which players to keep or drop—and for making money.

On Saturday, the NFL opens up on five fronts with the following exhibitions: Baltimore vs. Philadelphia at Hershey, Pa.; Chicago vs. New York at Ithaca, N.Y.; Cleveland vs. Detroit at Detroit; Green Bay vs. Pittsburgh at Miami, and Minnesota vs. San Francisco at Portland, Ore.

The whole AFL gets into the act, starting on Friday when the new New York Jets, formerly the Titans, play Houston at Shreveport, La., and the Buffalo Bills take on the champion Kansas City Chiefs, formerly the Dallas Texans, at Kansas City.

On Saturday Boston plays the Chargers at San Diego, on Sunday it is Denver at Oakland, and Wednesday finds Boston opposing Houston at Lowell, Mass.

The AFL already has had three exhibitions in which all of the favorites were beaten. San Diego thumped Kansas City 26-14, Denver toppled Houston 27-14, and Oakland, which won only one game in 1962, edged Boston 24-17, all last weekend.

Bill Faul Donates To His Alma Mater

CINCINNATI, Ohio (AP) — Detroit Tiger pitcher Bill Faul Wednesday gave \$2,000 to his Alma mater, the University of Cincinnati.

Faul's mother, Mrs. Mildred Faul of Pleasant Plains, said he had asked her to forward the check to the university. It is expected to be used for scholarships although it cannot be earmarked for any specific purpose.

Faul graduated from Cincinnati in 1962 and was signed immediately by the Tigers. He played baseball at U-C for three years.

Bay Bowling League To Meet Tonight

An important organizational meeting will be held tonight at 8 p. m. at the Escanaba Abstract office, 403 Ludington St. All captains are reminded to be present, as well as any league member who desires to attend.

Fred McLeod, winner of the 1908 U. S. Open at Hahilton, Mass., was one of the spectators at the 1963 Open at Brookline, Mass.

Yanks Win 9-1

Killebrew Grabs Homer Lead As Twins Move Into Third

By MIKE RATHET
Associated Press Sports Writer

Quick-firing Harmon Killebrew ruled murderers' row today after a power struggle at Los Angeles in which deposed kingpin Bob Allison issued a warning to the guy who shoved him from the No. 1 spot.

Hammerin' Harmon, who along with Allison and Earl Battey, forms Minnesota's power triumvirate, took over the American League home run lead Wednesday night with a three-run eighth inning shot that catapulted the Twins to a 9-4 victory over the Angels.

Killebrew's 26th homer gave him one more than Allison and put him five up on Battey. Killebrew, who tied for the homer championship with 42 in 1959 and captured the crown with 48 last year, is trying to become only the ninth player in AL history to hold or share the title three or more times.

Allison was forced to the side-

Mead No. 1 Wins Over Flat Rock; In Finals Sunday

Mead No. 1 continued its winning way in the Class B District Softball Tournament at Escanaba last night by downing the Flat Rock team 8-5. Bill Courneene went most of the way for the winners, gaining the victory. Todd Butler came in for the last inning, and got the side out without a hit, stretching his tournament no-hit innings to eight.

For the Mead team it was eight runs on eight hits and three errors. Flat Rock had five runs on four hits and nine errors. Courneene allowed only four

Annual Clash To Be Saturday In Little League

While informal scrimmage games will continue between Little League teams, the final official contest of the 1963 Escanaba Jaycee Little League season will be

Members of Little League tournament team are asked to turn their uniforms in to John Chylek as soon as possible.

staged Saturday night when the annual graduate-undergraduate game is resumed after a lapse of several years. The game will be staged for the benefit of the Retarded Children's project, and will give the fans a last opportunity to see the 1963 class in action as Little Leaguers.

Never in the 13 years of Little League in Escanaba have the undergraduates won the game and it is doubtful if it could happen this year since the 1963 crop of graduates is regarded as the best quantity and quality wise ever to come out of Escanaba's Little League program. Many of the boys are products of the farm system inaugurated back in 1958 and are now completing their sixth year of organized ball.

Steve Miketina, unbeaten this season, including a 3 to 0 win over Munising and a 3 to 1 tournament win over Ashland, will toe the slab for the Seniors, while Danny Mylander will probably go for the class of '64. Some of the other veterans making their last appearance as Little Leaguers include Greg Johnson, Roger Chylek, Loren Kositzky, Rob Stumm, and Pete Ross.

Rookie lineman Daryl Sanders, who was expected to draw a starting assignment in the game, reported he had an injured back and a sore knee.

Others who appear certain to miss the game because of injuries are defensive backs Dick LaBeau and Bruce Maher, tackles Harley Sewell and John Gamble and half-back Terry Barr.

Tackle John Gonzaga was excused from camp Wednesday. He was summoned to Youngstown, Ohio, where his wife was involved in an auto accident. Gonzaga was already a doubtful starter because of a back injury.

Eskey Country Club Tournament Is Set For August 12-15

The Annual Escanaba Country Club Tournament for women will be held on the club course on Aug. 12-15, with Marie Wicklander playing as defending champion. The session will be open to all club members.

In yesterday's action on the course, Marie Wicklander shot a 46, Kris Erickson and Lou Berglund shot 47, Mary Sue Boyce a 48, and Sally Fontaine, Ruth Needham, Rita Sauers, Gloria Hansley and Milly Boyce shot 50.

Nicky Traverse won the first flight, DeDe Bonifas the second and Ruth Dufrense won the third flight.

Team standings:

Six Shooters	58 1/2
Swanice Swingers	56 1/2
The Golf Babs	55 1/2
Rosie's Rompers	53

Shoggy Slickers	42 1/2
Boyce's Bouncers	42 1/2
Witz's Witches	39 1/2
Unpredictables	33
eg's Pills	29

#

Free-run homer in the ninth for the Twins to pad the final margin. Wagner hit No. 22 for the Angels.

Pepitone started the Yankees' attack against Steve Ridzik with his first homer, a three-run shot, in the first inning and before it was over the AL leaders had collected 10 hits. Howard hit a career high with his 22nd homer while Bobby Richardson chipped in with a free-run double. Al Downing, 8-3, yanked the Senators on three singles, but Minnie Minoso stole me in the third to spoil his shut-out bid.

Rookie Pete Ward triggered the

The B's Have It

CHICAGO (AP) — Maybe the reason the Cubs have been so pesky this baseball season is because they've got a lot of B's. There's Brock, Burke, Burton, Boros, Banks, Bartell, Buhl, Brewer, and Baker—nine in all, enough to put a team on the field.

BIDS WILL BE Received on 40 acre timber land in Treney. Reserve the right to reject any or all bids. Aileen Kivimaki, HI 6-2132 after 6 p.m.

ATTENTION BIDDERS. The Theisen-Clemens Oil Company will sell to the highest bidder the homes and 2 garages situated on the North side of Delta Avenue West of the North 14th Street intersection in Gladstone. Bids on individual buildings will be accepted and will be identified by number.

Sealed bids will be received in the Kipling Office of the company until 2:00 p.m. Monday, August 19, 1963, at which time and place bids will be opened. Mailing address: Box 149, Gladstone.

Each bidder shall enclose with his bid an amount equal to 10% of the bid in certified check, bank draft or money order to show good faith of the bidder. Deposits of unsuccessful bidders shall be returned. Envelope containing bid shall be plainly marked "Bidding Bid."

The buildings will be opened for inspection Saturday, August 10, from 10:00 A.M. to 5:00 P.M. on Monday, August 12 and Tuesday, August 13 from 3:00 to 8:00 P.M.

All surface wiring, plumbing and heating equipment must be removed from the buildings. This does not apply to basement floors, walls and foundations.

Successful bidder must be prepared to pay the amount of his bid and the required sales tax in full, upon completion of acceptance of his bid, and to remove the items from the premises by October 15, 1963.

Successful bidders will not be permitted to take possession of or otherwise commence the removal of the structures, until complete payments have been made.

Building must be removed at the risk and expense of the successful bidder and its conformity with the Ordinance, rules, regulations and zoning restrictions of the City of Gladstone.

The obtaining of all necessary permits is the responsibility of the bidder.

The company reserves the right to reject any or all bids and to waive defects in the bidding.

Theisen-Clemens Oil Company, Gladstone, Michigan.

2 BEDROOM Modern Home, attached garage, full lot, 1002 S. 14th St. Dial ST 6-1225.

Airport Potato Patch Is Big High Flying Venture

By JEAN WORTH

NORWAY—Agriculture in this country is believed by many to have its present problem of surplus because it is the first business to which the benefits of education have been brought massively.

From having been a way of life that settled rural America and gave it its first strong national character, farming has become quite industrialized and the needs for knowledge, acreage and machinery have increased so much that there's no longer any need for the little farm and it's difficult for the little farmer to make a modern income.

The Upper Peninsula has never been a place of big farming but it has managed to achieve records of outstanding farm performance on the strength of some excellent individual farm managements. The U. P., for instance, holds the Michigan potato yield record and its tubers enjoy a better than state average reputation.

The Upper Peninsula has many super tuber farmers. None of them is more in the public eye this year than Alfred Oelke. His story is particularly exemplary for the U. P. because he was a conventional successful farmer who decided upon a new career in an old business and plunged into an ultra modern potato farm that is a showplace of Dickinson County and Upper Peninsula farming.

Successful Dairy

Oelke's farm, three miles west of Norway on U. S. 2, was the third stop on this year's recent fourth annual Upper Peninsula Farm Management Tour, the climax event of the day. He was the only farmer visited on the tour whose family are second generation native in America. His father Otto was a Milwaukeean who farmed at Waukegan.

Alfred Oelke was born on that farm and later worked it with his parents. It was a dairy farm and he started in the potato business there and has been in it since.

"I've been on the farm since I was 17," said Oelke "that's 38 years. We always did well in dairying and we had a fine herd. When it was sold in 1942 our Holsteins brought the highest prices that had been paid in the U. P."

"I was encouraged to go into potatoes by D. H. Campbell, a potato grower and certified seed producer. The first year of our venture he furnished the seed, fertilizer and spray materials and did the roguing of diseased plants for the certification."

"We put in 32 acres of Russet Rural and did OK, but they found one plant with ring rot so we failed of certification. But the market was good and we had over 16,500 bushels. That was in 1944."

Buy New Farm

Oelke has been expanding since then in potato production.

Mrs. Oelke is the former Mildred Johnson, a neighbor from Waukegan days, of Cunard. They have two daughters, one married.

In 1953 the Oelkes bought a new farm. It might seem to some

an unlikely place to make your fortune in potatoes, but he knew what he wanted. The soil was Pease, a loamy, fine sand which is fairly droughty, but the ground was level for a huge area, stone free, structured for successful irrigation and modern fertilization. Such farm outlook has changed from a search for a soil with all needed crop nutrients to one which will produce well under modern methods of plant culture and stimulation.

Oelke bought an airport for his farm. It had been the Northland Airport of Walter Bourdais and most of the acreage, apart from the landing strips, was covered with jackpines and blueberry bushes. Fumee Creek, a tributary of the Menominee River, was nearby to furnish water for irrigation.

Forty acres of land were cleared the first year and now there are almost 300 tillable acres and Oelke has 600 acres and says that 525 of them are about the maximum usable for cultivation. This year he has 90 acres planted to Russet Burbank baking potatoes and they stretch out in rows to the end of vision with the great sprinklers of the irrigation system creating graceful wands of water above them and washing that expensive fertilizer down into their root areas.

Last fall Oelke harvested 600 bushels to the acre or 45,000 bushels from his 70 acre planting. The harvest graded 65 pct. No. 1, and 50 pct. of the tubers in this grade were 10 ounces in size or larger.

The former airport office is the Oelke home now and the hangar is the farm's machine shop. Oelke erected an 80x40 foot steel storage building in 1961 and a 74x60 foot steel building last year. The two hold 45,000 bushels of potatoes and there's storage space for 15,000 bushels more at the old Waukegan warehouse.

The production line for washing, grading, waxing, sprout treating and boxing ends up in an electronic gadget that matches the potatoes as evenly as marbles.

As might be expected, such fancy tubers get a fancy wrapping. They go into 50-pound boxes with potatoes of even size, ranging in size so the count runs from 90 to 120, and are much in demand by institutions, restaurants and hotels that want uniform portions for their service. Gene Katz of I. Quacks & Sons developed the pack and the market took 10,000 boxes of the county pack potatoes in the first year.

Much Machinery

The market premium for the fancy pack over simple bagged potatoes is 65 cents per 50 pounds.

Perkins

Mrs. Eva LaCrosse of Detroit visited with her sister Mr. and Mrs. William Trudell. She arrived here with Mrs. Elmer Morin of Wayne, the former Virginia Pepin who visited with her sister, Mrs. Emil Casimir and her mother, Mrs. Victorine Pepin who is a patient in St. Francis Hospital.

Mr. and Mrs. Richard Goodman and children of Green Bay, and Mr. and Mrs. Richard Ducheny and children of Escanaba visited with Mr. and Mrs. Robert Hansen at the Joseph Richards home on Saturday. Mrs. Ducheny is the former Gale Arvey and Mrs. Goodman the former Flora Arvey. The Robert Hansens of Milwaukee returned to their home Sunday evening. Mrs. Hansen is the former Nancy Richards. Also visiting with Joseph Richards over the weekend were Mrs. Walter McCauley and son Emmet and Mrs. Emma Bennett of Milwaukee. Both are sisters of Joe Richards.

Alfred Oelke, Norway potato farmer, is pictured with a box of his count pack potatoes, electronically sized in the machine behind him so they provide uniform servings for institutions, restaurants, hotels or homes. The boxed tubers are washed, waxed and sprout treated and command a premium over their less royal cousins in bags and other plebian containers. (MSU Photo)

THE Fair STORE BIG AUGUST MOWER EVENT!

SPECIAL PURCHASE
FACTORY OVER-SUPPLY

PERFECT QUALITY

Reg. \$59.95

NOW ONLY **\$45**
EASY TERMS

WE MADE A LUCKY PURCHASE! We were able to buy a portion of a factory over-supply of these fine power mowers... and are giving YOU the SAVINGS! 3 H. P., 4 cycle Briggs engine, easy-spin recoil starter, 22" cut, 8" ball-bearing wheels, steel reinforced deck, long triple chrome handle, wide track tires, control on handle. All perfect quality with warranty. **COME EARLY!!!**

FILLED WITH GAS . . . OIL . . . AND READY TO GO!!!

LIMITED QUANTITY!!!

GET HERE EARLY!!!

FREE DELIVERY IN ESCANABA!!!
